

**2nd Half Yearly Monitoring Report of 2011-12 of
NABAKRUSHNA CHOUDHURY CENTRE FOR
DEVELOPMENT STUDIES, BHUBANESWAR,
ODISHA (Monitoring Institution)**

On

***Mid-Day Meal Scheme for the State of
ODISHA***

(for the period of 1st April 2012 to 30th September 2012)

DISTRICTS COVERED

- 1. ANGUL**
- 2. GANJAM**
- 3. RAYAGADA**
- 4. GAJAPATI**

Study sponsored by

**Department of Elementary Education and Literacy,
Ministry of Human Resource Development
Government of India**

Report prepared by

Dr. Prasanta Kumar Acharya

Nodal Officer for Monitoring MDM Scheme, in Odisha

November, 2012

ACKNOWLEDGEMENT

This report has been prepared for the State of Odisha revealing the progress of the Mid-Day Meal (MDM) programme during 2012-13. The facts depicting the operation of the MDM programme have been examined and analyzed especially pertaining to the implementation of MDM at school level during the period from 1-4-12 to 31-8-2012. The data used in this report have been gathered from the sample respondents like teachers, Head Teachers, SHG members, community leaders, students etc. from the sample schools of Angul, Ganjam, Rayagada and Gajapati Districts. We are thankful to all of them.

We are also grateful to the SPD and his staff of OPEPA and the DPCs and their staffs of Angul, Ganjam, Rayagada and Gajapati Districts for their kind cooperation to complete the study.

Our Director, Prof. R. K. Panda has extended necessary cooperation in completing this study. We are therefore grateful to him.

We express our deep sense of gratitude to the Ministry of Human Resource Development for providing grant and guidelines to undertake the monitoring activities in Odisha State,

We express our thankfulness to Shri K. Girija Shankar, Senior Consultant (Monitoring) SSA, Technical Support Group (TSG), EDCIL, New Delhi who has consistently supported the entire team to write the report as per the prescribed half yearly monitoring format.

We also express our sincere thanks to Shri S. Rath, Administrative Officer, Shri D. Sahoo, PA to Director and other official staff, namely Shri P. K. Mohanty, Shri P. K. Mishra, Shri P. K. Mallia Shri S. Sahoo and Mrs. A. P. Panda for their kind cooperation in completing the work in time.

We are also thankful to Mr. S.D. Goud, Mr. T. K. Dash and Mr. R. N. Sahoo, the Computer Operators, and Ms. Rasmita Sahoo for taking the pain and pleasure of typing the entire report in computer.

We hope that the findings of this report will be useful to various people concerned with funding, planning, implementation and research of the MDM programme.

Dr. P. K. Acharya

9..	After submission of the draft report to the SPO whether the MI has received any comments from the SPO: YES / NO	Yes
10.	Before sending the reports to the GOI whether the MI has shared the report with SPO: YES / NO	Yes

Executive Summary of all the District Reports of MDM

1. Angul District:

- ❖ Hot Cooked meal is served in all sample schools. Since 1-4-12, only in 15 (37.5%) schools MDM service has been interrupted for a few days for reasons like rice shortage, fuel shortage, rainfall etc.
- ❖ Out of every hundred enrolled children, 52 children have not taken MDM because 44 have not come to school and 08 have gone to home to take home-made food or eat home made tiffin on the visit day of MI to the schools.
- ❖ There are 14 (35%) schools, where it is found that the amount of rice actually cooked is less than the amount of rice required for the children who actually consumed MDM. At Govt. Town UPS of Angul Municipality on 28-7-12, for instance 190 children (122 Pr + 68 Upper Pr.) took MDM. As per the MDM norm, 22 kg. 400 gm of rice should be cooked but only 16 kg. of rice was cooked.
- ❖ Food-grains have not been received regularly, since 1-4-12 by all of the sample schools. In turn, rice is given for several months to schools at one time and hence rice stock remains for 3 to 5 months.
- ❖ 29 (72.5%) out of the 40 sample schools have received 01 month's extra food-grains and 30 (75%) schools have received the food-grains at school point. Food-grain quality has been good in all cases.
- ❖ Cooking cost has not been received regularly in advance by any school. Not a single schools has received it since April 2012. The SMC / SHG / HM is to pay from their own fund to run the MDM scheme for several months and hence face a lot of difficulties.
- ❖ Social equity is seen everywhere relating to cooking, serving and seat arrangement for MDM.
- ❖ Weekly menu is displayed in 32 (80%) schools but all 40 sample schools serve variety of food items as per the prescribed menu.
- ❖ Children are happy with both quality and quantity of food items in all schools.
- ❖ Healthcare and supplementary nutrient facilities have not been provided since 1-4-12. Health card is found in only 10 schools but does contain health related data in only 04 schools.

- ❖ Cooks and Helpers have not yet got the remuneration of Rs.1000/- per month. But the District has already taken steps to provide it shortly. The District however should ensure that people should be posted as Cook-cum-Helper and not as Cook or Helper.
- ❖ Pucca kitchen-cum-store has been constructed in many schools but are used in only 02 schools for both cooking and storing purposes. 17 schools do not use the constructed pucca kitchen for cooking and 26 schools do not use it for storing for reasons like space shortage, ventilation problem, fear of theft etc.
- ❖ 39 (97.5%) schools have potable drinking water facility. 22(55%) schools have adequate cooking utensils but none has storing utensils.
- ❖ In most of the schools, children wash hands and utensils before and after eating. They also partake meals in an orderly manner.
- ❖ Parents / SMCs / PRI supervise MDM occasionally but a roster for MDM supervision is not maintained.
- ❖ Community in many schools has expressed satisfaction over the quantity of MDM served and has felt that MDM contributes to raise child attendance and general health.
- ❖ Inspection visits of MDM officials is very rare.

2. Ganjam District:

- ❖ Hot Cooked meal is served in all sample schools. Since 1-4-12, in no sample schools MDM service has been interrupted for any reason
- ❖ Out of every hundred enrolled children, only 63 children are taking MDM because 29 are not coming to school and 08 go home to take food or eat home made tiffin.
- ❖ In rural schools, an NGO called Nandi Foundation provides MDM which violates the GoI norm. Further, it does not adhere to the State Govt. declared weekly menu to provide MDM. It follows its own menu. It claims MDM expenditure for more number of children than those who have actually attended the school or taken MDM.
- ❖ Food-grains are not received regularly every month since 1-4-12 by most of the schools because rice has been supplied to schools for several months at a time. Further, many schools have mentioned that less amount of rice is supplied than what they sign to have received. In the absence of a digital / electronic weighing machine, they are unable to measure the quantity if rice they actually receive from the supplier.

- ❖ 6 (15%) out of the 40 sample schools have received 01 month's extra food-grains as buffer stock for every month during April to August, 2012. Most of the schools have received the food-grains at school point. Food-grain quality has been good in almost all cases.
- ❖ Cooking cost has not been received regularly every month in advance by many schools.
- ❖ Social equity is seen everywhere relating to cooking, serving and seat arrangement for MDM.
- ❖ Weekly menu prescribed by the State Govt. is not displayed in any school. The menu has been changed by the NGO and District. But all schools serve variety of food items every day.
- ❖ Children are happy with both quality and quantity of food items in all schools.
- ❖ Healthcare and supplementary nutrient facilities are not available in any school.
- ❖ Cooks and Helpers do not get remuneration regularly in most of the schools every month. In a majority of the schools, they belong to weaker sections. They have not got the remuneration of Rs.1000/- per month as per the GoI norm in some schools.
- ❖ Pucca kitchen-cum-store has been constructed in only 14 (35%) schools but most of them are not used either for cooking or for storing purpose only. In some schools MDM is cooked in school verandah or in an open place. 26 (65%) schools have not got the sanction to construct it.
- ❖ 38 (95%) out of 40 schools have potable drinking water facility. Majority of the schools have adequate cooking utensils but none has storing utensils.
- ❖ In majority of schools, children wash hands and utensils before and after eating. They also partake meals in an orderly manner in all schools.
- ❖ Parents / SMCs / PRI supervise MDM occasionally but a roster for MDM supervision is not maintained in any school.
- ❖ Community in many schools has expressed satisfaction over the quantity of MDM served and has felt that MDM contributes to raise child attendance and general health.
- ❖ Inspection visits of MDM officials is very rare.

3. Rayagada District:

- ❖ Hot Cooked meal is served in all sample schools. Since 1-4-12, in no schools, MDM service has been interrupted for any days.
- ❖ Out of every hundred enrolled children, 62 children are taking MDM because 33 are not coming to school and 05 go home to take home-made food.
- ❖ 10 (25%) schools have cooked rice less than the amount required for the children actually have consumed MDM and 13 (32.5%) schools have cooked rice more than the amount required for the children who have actually consumed MDM.
- ❖ Food-grains are not received regularly by the schools but 24 (60%) schools have got 2-8 kg. less supply of rice per 50 kg. bag. The HT is compelled to sign on the receipt to have received 50 kg. of rice per 50 kg. bag. In the absence of a digital / electronic weighing machine at school, they are unable to measure the actual amount of rice received by them.
- ❖ 22 (55%) out of 40 sample schools have received 01 month's extra food-grains and 34 (85%) schools have received the food-grains at school point. Food-grain quality has been good in all schools who have received the food grains.
- ❖ Cooking cost has never been received in advance by any school every month regularly since 1-4-12. All schools have not received it since April.
- ❖ Social equity is seen everywhere relating to cooking, serving and seat arrangement for MDM.
- ❖ Weekly menu prescribed by the State Govt. is displayed in 29 (72.5%) out of the 40 sample schools. Different food items are served everyday in all schools.
- ❖ Children are happy with both quality and quantity of food items in all schools.
- ❖ Healthcare and supplementary nutrient facilities have not been provided since 1-4-12.
- ❖ Cooks and Helpers do not get remuneration of Rs.1000/- per month. In almost all schools, they belong to weaker sections. They get Rs.600/- and Rs.400/- per month respectively. At school point, Cook-cum-Helpers have not replaced the Cook and Helper as per the GoI norm.
- ❖ Pucca kitchen-cum-store has been constructed in 29 (72.5%) schools but out of them in 20 (68.9%) school, it is not used either for cooking or for storing purpose in 20 (50%) schools. Some schools cook in school verandah and store in classroom.
- ❖ 32 (80%) out of the 40 sample schools have potable drinking water facility. 22 schools (55%) have adequate cooking utensils but none has storing utensils.

- ❖ In most of the schools, children wash hands and utensils before and after eating. They also partake meals in an orderly manner in all schools.
- ❖ Parents / SMCs/ PRI supervise MDM occasionally but a roster for MDM supervision is not maintained.
- ❖ Community in many schools has expressed satisfaction over the quantity of MDM served and has felt that MDM contributes to raise child attendance and general health.
- ❖ Inspection visits of MDM officials is very rare.

4. Gajapati District:

- ❖ Hot Cooked meal is served in all sample schools. Since 1-4-12, only in 09 schools MDM service has been interrupted for a few days for reasons like, rice shortage and no payment of salary to Cook and Helper for May and June, 2012.
- ❖ Out of every hundred enrolled children only 29 children are taking MDM because 25 are not coming to school and 04 goes home to take home-made food.
- ❖ 10 schools have cooked rice less than the amount required for the children who have actually consumed MDM.
- ❖ 08 schools have cooked rice more than the amount required for the children who have actually consumed MDM.
- ❖ Food-grains are received regularly by only 03 (7.5%) sample schools. 23 (57.5%) schools have got 01 to 06 kg. less supply of rice per 50 Kg. bag.
- ❖ Only 04 (10%) schools have received 01 month's extra food-grains regularly for every month since 1-4-12.
- ❖ 28 (70%) schools have received the food-grains at school point. Food-grain quality has been good in all 40 sample schools.
- ❖ Cooking cost has never been received in advance every month regularly in any school. Schools have not got the cooking cost from April 2012 onwards.
- ❖ Social equity is seen in all schools relating to cooking, serving and seat arrangement for MDM.
- ❖ Weekly menu prescribed by the State Govt. is displayed at a visible place in 34 (85%) out of 40 sample schools. Different food items are served everyday in all 40 schools.
- ❖ Children are happy with both quality and quantity of food items in all 40 sample schools.
- ❖ Healthcare and supplementary nutrient facilities have not been provided since 1-4-12.

- ❖ Cooks and Helpers do not get remuneration regularly in most of the schools every month. They have not got it since April, 2012. In majority of schools, they belong to weaker sections.
- ❖ Pucca kitchen-cum-store has been constructed in 30 (75%) sample schools but are not used either for cooking or for storing purpose in many of them. Some schools cook in school verandah or open space and store in classroom.
- ❖ 36 (90%) schools have potable drinking water facility. Only 26 (65%) schools have adequate cooking utensils but none has storing utensils.
- ❖ In 25 (62.5%) schools, children wash hands and utensils before and after eating but in 38 (95%) schools, they partake meals in an orderly manner.
- ❖ Parents / SMCs / PRI supervise MDM occasionally but a roster for MDM supervision is not maintained.
- ❖ Community in many schools has expressed satisfaction over the quantity of MDM served and has felt that MDM contributes to raise child attendance and general health.
- ❖ Inspection visits of MDM officials is very rare.

ANGUL DISTRICT

Introduction:

Angul District is located in the central region of ODISHA State. It has 1569 number of schools covered under SSA (DISE 2011-12 data from DPO). The District office concerned with MDM scheme is located at Angul town. In order to implement MDM activities, District as well as Block level officials have been engaged. Besides, the teachers, SMC members and PRI members are also allowed to supervise the MDM scheme at school level. As per the MDM guidelines, rice is provided to the SHG/SMC who prepares and provides MDM purchasing dal, egg, mealmakers, vegetables and fuel. Each school is to get the cooking cost in advance every month and produce the expenditure statement along with vouchers to the Block office every month for release of the expenditure amount.

Procedure and criteria adopted for selection of sample schools:

As per the MoU and ToR, 40 schools have been identified in discussion with the DPO staffs of Sarva Shiksha Abhiyan of the District on 27-07-12 for monitoring of MDM activities at school level. The guidelines mentioned in the ToR have been followed for school selection. The 40 schools include 8 urban schools and 32 rural schools. The school wise details of criteria basing upon which the sample schools have been identified have been reflected in the DPO's **letter no. 1390/Estt, dtd. 27-07-12** placed at page 13. Out of the 40 sample schools, 36 have Primary schooling, 27 have Upper Primary schooling. Each of the 40 sample schools has been visited by 01 of the members of the monitoring team who has spent 01 full day at the school to collect the MDM related data as per the format prescribed by the MHRD, GoI. The Nodal Officer has also visited one-third of the 40 sample schools as per the ToR. The data have been obtained by interacting with children, teachers, cook, helper, SHG/SMC/NGO providing MDM at school point and by observing the process of MDM preparation, storage and distribution. The data then have been cross-checked, cleaned and tabulated for analysis in respect of different aspects of the MDM scheme.

Mid-Day Meal Scheme:

(i)	Name of the Monitoring Institution	NCDS
(ii)	Period of the report	01-04-2012 to 30-09-2012
(iii)	Name of the District	ANGUL
(iv)	Date of visit to the Districts/Schools	27-7-12 to 02-8-12

1.	<u>REGULARITY IN SERVING MEAL:</u>	Students, Teachers & Parents
	<p>Whether the school is serving hot cooked meal daily? If there was interruption, what was the extent and reasons for the same?</p>	<p>The MI has visited 40 schools and has found that hot cooked meal is served in every school. In only 15 of these schools since 1-4-12 provision of MDM has been stopped for some days (for school wise details, see Table 1.1 at page 15). There are several reasons for it but what matters most is stoppage if MDM due to lack of rice or cooking cost. As per the MDM guidelines cooking cost in advance should be released every month by the first week to the bank account of each school and rice is to be supplied to each school every month along with a buffer stock of one month. But for some reasons this has not happened for some schools where MDM provision has been stopped for some days due to lack of rice or cooking cost. The District Nodal Officer for MDM at present does not have the required Cluster Level and Block level Nodal Officer to get the feedback data from school point every month or week. The state can engage the CRCCs as Cluster Level Nodal Officer for MDM and get the feedback data from school point. Similarly, the Block Level Nodal Officer for MDM may be provided with 01 computer set, 01 operator and 01 Accountant to update all feedback data on regular supply of rice and cooking cost in advance, stoppage of MDM for rainfall is very rare and occurs when there is heavy rainfall regulating into very low attendance. Stoppage of MDM due to other reasons are also very rare and does not warrant any change in policy decision at present.</p>

TRENDS:

Extent of variation (As per school records vis-à-vis Actuals on the day of visit)

No.	Details	On the day of visit
i.	Enrollment	8,536
ii.	No. of children opted for MDM	8,536
iii.	No. of children attending the school on the day of visit	4,753
iv.	No. of children availing MDM as per MDM Register	-
v.	No. of children actually availing MDM on the day of visit	4,062

School level registers, MDM Registers Head Teachers, Schools level MDM functionaries / Observation of the monitoring team.

2.

In the 40 sample schools, 8,536 children had been enrolled and for all of them MDM provision has been made by the government. On the date of MI's visit to these schools, 4,753 (55.7%) children had attended the schools. In all 40 schools except the Nuapada PS, some children had not attended the school on the day of visit of MI. The teachers could not say correctly the reasons for which those children had remained absent from school. There is practically neither any process nor any mechanism followed in each school as well as in the District to record the reasons for non-attendance of the children. No systematic measure has been taken by the SMC to raise the percentage of attendance of children. Further, the District has not taken any step to identify the cases of double / fake enrollment and delete their names from the students' attendance register. In our MDM reports for the 2nd half year of 2010-11 as well as for the 1st half year of 2011-12, the State had been requested to make a study on students' absenteeism and take appropriate measures in this regard to reduce students' absenteeism but it appears that the District has not taken any such steps.

In addition, 8.1% children who had attended the schools, had not taken MDM. These children belong to 17 schools (Table 2.1 at page 16). In 02 of these schools, MDM was not cooked, for which reason the children could not eat MDM. In other 15 schools, some children did not take MDM for varied reasons. For instance, in J.D. Sahi UGHS, many children could not eat MDM because they had not brought their plate. MDM cooking was stopped from 23.07.12 to 26.07.12 owing to lack of rice and was started on the visit day of MI (27.07.12) which was not informed to children. In Shikshakpada UPS, Saimita Sahu, Rupali Biswal and Rajashree Sahoo of class VI could not eat MDM on visit day of MI (28.07.12) because they had not brought plates from home. On 31.07.12, at Khemala NUPS,

	<p>Sulekha Sethi and Gayatri Sahoo of Class IV and Chandan Nayak of Class VII also could not eat MDM because they had not brought plates from home. In all these cases, the concerned schools also had no plates to provide for these children. This problem can only be solved if each school procures from MDM/SSA fund some stainless steel plates and glasses for the children as per requirement. The State and the District MDM authority may take appropriate measure in this regard.</p> <p>There are 29 (72.5%) out of 40 schools (Table 2.1) where MDM has not been cooked as per the number of children actually availed MDM on the visit day of the MI. Out of these, in 14 schools less quantity of rice has been cooked than the amount required for the children who actually consumed MDM (for details see Table 2.1 at page 16). For instance, in Government Town UPS in Angul Municipality on 28.07.12, 122 primary children and 68 Upper Primary children (total 190) consumed MDM. The SMC of this school manages MDM and on that day, it had cooked only 16 kg of rice instead of the required 22 kg. 400 gm. of rice.</p> <p>On the contrary, there are 15 schools where more quantity of rice has been cooked than the amount required for the children who actually consumed MDM. For instance, at Khamar NUPS of Pallahara Block, 127 children (26 P & 101 UP) consumed MDM on 2.08.12, the visit day of MI and as per MDM guidelines, 17 kg. 750 g. of rice was required to be cooked. But the SMC who manages the MDM had cooked 24 kg. 450 gm. of rice i.e. for all 174 children (33 P + 141 UP) who had attended the school on that day. The excess amount of rice was taken away by the Cook and Helper later on.</p>	
3.	<p><u>REGULARITY IN DELIVERING FOOD GRAINS TO SCHOOL LEVEL:</u></p> <p>(i) Is school receiving food grain regularly? If there is delay in delivering food grains, what is the extent of delay and reasons for the same?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>
	<p>Out of the 40 sample schools, no school has received rice regularly every month since 1-4-12 (For school wise details, see Table 3.1 at page 17). In case all schools the reason of delay is found to be availability of stock for several months. The schools are provided with rice stock for 3 to 5 months at a time or even more in some cases. Thus there is a buffer stock of more than 03 months in some schools. Dal, vegetable, mealmaker and eggs are procured from local markets.</p>	
	<p>(ii) Is buffer stock of one-month's requirement is maintained?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries</p>

<p>There is a buffer stock of one month's requirement of rice in 29 out of the 40 sample schools (For school wise details see, Table 3.1). Data on the rest 11 sample schools are not available because of absence of MDM register.</p>	
<p>(iii) Is the quantity of food grains supplied as per the marked / indicated weight?</p>	
<p>In 28 out of 40 sample schools, rice has been supplied less than the marked weight of the bag (i.e. 50kg). Rice has been received less up to an amount of 2 to 5 kg per 50 kg. bag (for school wise details see Table 3.1). The Block / District officers have not taken appropriate measures to address this problem. The schools receiving less amount of rice complain that they are compelled to give signature on the receipt to have received 50 kg of rice per bag. Further, teachers are compelled to receive the rice in such cases, this situation is occurring because neither the Block Nodal Office, MDM nor the school has a digital weighing machine to measure the quantity of rice delivered/received. Policy decision be made to provide such machine to each school and each Block Nodal Office, MDM.</p>	
<p>(iv) Is the food grains delivered at the school?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries</p>
<p>Rice is delivered at schools in 30 out of 40 sample schools. In case of the rest 10 schools, rice is delivered at SHG houses (For school wise details, see Table 3.1).</p>	
<p>(v) Is the quality of food grain good?</p>	
<p>In all 40 sample schools, the rice received has been of good quality. (For school wise details, see Table 3.2 at page 19).</p>	
<p><u>REGULARITY IN DELIVERING COOKING COST TO SCHOOL LEVEL:</u></p>	
<p>(i) Is school receiving cooking cost in advance regularly? If there is delay in delivering cooking cost what is the extent of delay and reasons for it?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>
<p>Not a single out of the 40 sample schools has received the cooking cost in advance regularly. They have not received it for April, May, June and July 2012. The main reason of delay was found to be: official delay, (For school wise details, see Table 4.1 at page 20).</p>	
<p>4.</p>	<p>Furthermore, at many schools the cooking cost advance has been released to their bank account with no written intimation for which months the advance has been released. Hence at school point, no record is available in respect of the months for which the cooking cost advance has been received. In view of this, the schools face difficulty in maintaining the MDM accounts properly.</p>
<p>(ii) In case of delay, how schools manage to ensure that there is no disruption in the feeding programme?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>

	<p>In case of delay, the cooking cost is managed from SHG fund (19 schools), the HM's own fund (16 schools), and SMC President's own fund (06 schools). (For school wise details, see Table 4.1 at page 20).</p>	
	<p>(iii) Is cooking cost paid by Cash or through banking channel?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>
	<p>The cooking cost has been received only through E-transfer in all schools. (For school wise details, see Table 4.1).</p>	
5.	<p><u>SOCIAL EQUITY:</u> Did you observe any gender or caste or community discrimination in cooking or serving or seating arrangements?</p>	<p>Observations</p>
	<p>In all sample 40 schools, the MI has noticed any equity in cooking, serving and sitting arrangement for MDM basing upon gender, caste or community (For school wise details, see Table 5.1 at page 21).</p>	
6.	<p><u>VARIETY OF MENU:</u> (i) Has the school displayed its weekly menu, and is it able to adhere to the menu displayed?</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
	<p>32 out of the 40 sample schools have displayed their weekly menu at a visible place. This menu has been prepared by the State Government and strictly followed by 40 sample schools where MDM is prepared everyday as per the given weekly menu. (For school wise details, see Table 6.1 at page 22).</p>	
	<p>(ii) Is there variety in the food served or is the same food served daily?</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
	<p>In all of the 40 sample schools different food items are provided to children daily. The food items have been decided by the State Government keeping in view the nutritional requirement of the children.</p>	
	<p>(iii) Does the daily menu include rice / wheat preparation, dal and vegetables?</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
	<p>In all 40 sample schools, the daily menu includes rice and vegetables every day. Dal is part of daily menu 02 days a week in all schools. Wheat is not given at all (For school wise details, see Table 6.1). In all 40 sample schools, rice and vegetables are served daily.</p>	
7.	<p><u>QUALITY & QUANTITY OF MEAL:</u> Feedback from children on a) Quality of meal:</p>	<p>Observations of Investigation during MDM service</p>

	<p>In 39 out of 40 sample schools, children have appreciated the quality of rice and in 39 schools, children have appreciated the quality of curry and dal (For school wise details, see Table 7.1 at page 23). In Champatimunda PUPS, MDM is not cooked owing to non-receipt of cooking cost in advance.</p>	
	<p>b) Quantity of meal:</p>	<p>Observations of Investigation during MDM service</p>
	<p>In 39 of the 40 sample schools, children have appreciated the quantity of rice as well as the quantity of dal / curry served to them (For schoolwise status see Table 7.1). In Champatimunda PUPS, MDM is not cooked owing to non-receipt of cooking cost in advance.</p>	
	<p>c) {If children were not happy Please give reasons and suggestions to improve.}</p>	<p>Observations of Investigation during MDM service</p>
	<p>See description of items 7 (a) and (b) above.</p>	
8.	<p><u>SUPPLEMENTARY:</u> (i) Is there school Health Card maintained for each child?</p>	<p>Teachers, Students, School Record</p>
	<p>In only 10 out of the 40 sample schools, health cards are available for the children (For school wise details, see Table 8.1 at page 24). But it contains information of the children relating to name, height and weight in some schools. Data relating to illness and health are also not recorded in schools where health check up programme has been conducted for the children. In 04 schools, all health related data have been mentioned in the Health cards of all children.</p>	
	<p>(ii) No. of times health check up of children done since 1-4-2012.</p>	
	<p>Health check up of children has been done in no school since 1-4-2012. (For school wise details, see Table 8.1). Thus health check up of children is not regularly done. Malnutrition cases are not recorded in any school.</p>	
	<p>(iii) Whether children are given micronutrients (Iron, folic acid, vitamin – A dosage) and deworming medicine periodically?</p>	<p>Teachers, Students, School Record</p>
	<p>In 39 out of the 40 sample schools, iron tablets, Vitamin A tablets and deworming tablets have been given periodically (Table 8.1) Only at Tukuda UPS, on 12.04.12 iron, vit-A and deworming tablets had been provided to the children.</p>	
	<p>(iv) Who administers these medicines and at what frequency?</p>	<p>Teachers, Students, School Record</p>
	<p>The medicines have been provided by the State Government.</p>	
<p>(v) No. of times these medicines have been given since 1-4-2012.</p>		
<p>Medicines have been given only once in 01 school. (Table 8.1)</p>		

9.	<u>STATUS OF COOKS:</u> (i) Who cooks and serves the meal? (Cook/helper appointed by the Department or Self Help Group, or NGO or Contractor)		Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.
	<p>Out of the 40 sample schools, Cook and Helper have been engaged by SHG in 11 schools and in 29 schools by SMC (For school wise details, see Table 9.1 at page 25).</p>		
	(ii) Is the number of Cooks and Helpers engaged as per Govt. of India norms?	Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.	
	<p>As per the Government of India norms (vide, Lr. F. No. 5-1 / 2010-MDM-2-1 Govt. of India, MHRD, Department of School and Mass Education and Literacy, MDM Division Dt: 30-04-2010), 01 Cook-cum-Helper shall be engaged to a school up to 25 students. 02 Cook-cum-Helpers for schools having 26 to 100 students. And 01 additional Cook-cum-Helper is to be engaged for every addition of 100 students.</p> <p>Instruction in this regard has already been given to schools but no school has followed it in true spirit (For school wise details, see Table 9.1 at page 25). Many schools have engaged Cooks or Helpers instead of Cook-cum-Helpers and several schools have not engaged as per their enrolment strength. The District Nodal Office, MDM should take step to ensure that all who are engaged as per enrollment strength be designated as Cook-cum-Helper.</p>		
	(iii) What is remuneration paid to cooks/helpers?	Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.	
	<p>The Cook is paid Rs.600/- per month and the Helper is paid Rs.400/- per month in all sample schools. (For school wise details, see Table 9.1). As per the State Govt.'s commitment in the 2011 PAB meeting, the Cook/Helper is to get Rs 1000/- per month and the State has already taken a decision to provide it and has already given a letter to the District Office of MDM to implement it since 1-4-12, but at school level, it is not yet implemented.</p>		
(iv) Are the remuneration paid to cooks/helpers regularly?	Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.		

	<p>In all 40 sample schools the Cooks and Helpers are not getting their remuneration regularly. They have not got the remuneration since 1-4-12. (For school wise details, see Table 9.1). It goes against the current MDM rules of the State which says that the Cook-cum-Helper will get their remuneration every month regularly. Further, It was observed that the District/Block office for MDM does not inform in writing the number of months for which salary was released. The Cook and Helper in some schools have got no letter relating to the months for which they have got their salary. They have received the salary in their passbook but do not know for which months they have got it.</p>	
	<p>(v) Social Composition of cooks /helpers? (SC/ST/OBE/Minority)</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
	<p>In 30 out of the sample 40 schools, the Cook belongs to SC/ ST/ OBC/ minority community. In 31 schools, the Helper belongs to SC/ST/OBC/minority community (For school wise details, see Table 9.1). Thus employment facility is given to the backward communities on priority.</p>	
<p>10.</p>	<p><u>INFRASTRUCTURE:</u> 1) Is a pucca kitchen shed-cum-store: (a) Constructed and in use (b) Constructed but not in use under (c) Under construction (d) Sanctioned, but constructed not started (e) Not sanctioned Any other (specify)</p>	
	<p>School records, discussion with head teacher, teacher, VEC, Gram Panchayat members.</p>	
	<p>38 sample schools have got the sanction of pucca kitchen shed. In 02 schools, the pucca kitchen shed-cum-store that has been constructed is in use for both cooking and storing. In 17 schools, it is constructed but not in use for cooking. In 26 schools it is constructed but is not used for storing. In 06 schools, the pucca kitchen-cum store is under construction whereas in 02 schools it is sanctioned but the construction work has not yet been started (For school wise details, see Table 10.1 at page 27).</p>	
	<p>2. Construction grant received under which scheme?</p>	
<p>All the schools who have got the sanction for constructing the kitchen-cum-store have got it under the MDM or SSA scheme (For school wise details, see Table 10.1).</p>		
<p>3. Reason for not using the constructed kitchen-cum-store for cooking and storing</p>		

	<p>The constructed kitchen-cum-store is not used for cooking because of space shortage (10 schools); smoke/ventilation problem (10 schools); kitchen damaged (01 school); using old kitchen (01 school) and no provision for hearth (01 school). Further, the same is not used for storing because of space shortage (10 schools), fear of theft (15 schools) and other reasons (04 schools) (For schools wise details, see Table 10.1). The MI has observed that the kitchen constructed out of Rs. 60,000/- is of very small size. The cooking space available is further reduced because cooking slab has been made and is not used for cooking because gas chulla is not provided. MDM is cooked in a hearth. The kitchen is not made suitable for hearth based cooking and hence is not used for cooking in many schools especially with a higher students strength. In Govt. Town UPS of Angul Municipality the constructed kitchen-cum-store has become damaged and hence is not used for cooking. In Paradehursahi PS, old kitchen is still used for cooking MDM and hence the newly constructed kitchen is not used for this purpose.</p>	
11.	<p>In case the pucca kitchen shed is not available, where is the food being cooked and where are the food grains/other ingredients being stored.</p>	<p>Discussion with head teacher, teacher, VEC, Gram Panchayat members, Observation</p>
	<p>There are 27 out of the 40 sample schools where pucca kitchen is not used for cooking MDM. Out of these, in 04 schools MDM is cooked in school verandah. In case of 18 schools, it is cooked in an asbestos/tin/tile roofed house. In another 02 schools alternative place of cooking is an open space whereas in 04 schools, the alternative place of cooking is a thatched house (for details, see table 10.2 at page 28).</p> <p>Further, there are 34 schools where MDM is not stored in a pucca kitchen-cum-store. In 28 schools, food grains are stored in HM's room / classroom / unused room of school/school store room/etc. In 12 schools, SHG house is the alternative place of storing (For school wise details, see Table 10.2)</p>	
12.	<p>Whether potable water is available for cooking and drinking purpose?</p>	<p>Discussion with head teacher, teacher, VEC, Gram Panchayat members, Observation</p>
	<p>In 39 sample schools, potable water is available for cooking and drinking purpose (For school wise details, see Table 10.2). In case of Sansada UPS, the water is collected from the dug well of a house located about 50 meter away from the school.</p>	
13.	<p>Whether utensils used for kind food are adequate?</p>	<p>Teachers/Organizer of MDM Programme</p>
	<p>In 13 out of 40 sample schools, adequate utensils are available for cooking MDM (For school wise details, see Table 10.2)</p>	
14.	<p>What is the kind of fuel used? (Gas based/ firewood etc.)</p>	<p>Observation</p>

	In all 40 sample schools, either firewood or coal or both are used as fuel. (For school wise details, see Table 10.2)	
15.	<u>SAFETY & HYGIENE:</u> i. General Impression of the environment, Safety and hygiene:	Observation
	In 38 sample schools, clean and safe environment exists (For school wise details, see Table 11.1 at page 29). Every day the school campus and classrooms are cleaned by the students before the children go for a prayer.	
	ii. Are children encouraged to wash hands before and after eating	observation
	In 21 out of 40 sample schools, children are encouraged by the teachers to wash hands using soap and water before eating MDM. (For school wise details, see Table 11.1). In some schools, the Health Minister/Food Minister of the school cabinet guides the children to soap to wash hands and utensils.	
	iii. Do the children partake meals in an orderly manner?	observation
	In 37 sample schools children are seen to partake MDM in an orderly manner (Table 11.1). The orderliness is managed by teachers and the school cabinet formed by the children.	
	iv. Conservation of water?	Observation
	In 36 out of the 40 sample schools, children are found to conserve water while washing hands and utensils (For school wise details, see Table 11.1).	
v. Is the cooking process and storage of fuel safe, not posing any fire hazard?	observation	
In 38 sample schools, cooking and storage places are found to be safe from any fire hazard (Table 11.1). In the rest 02 schools, MDM is not given.		
16.	COMMUNITY PARTICIPATION: 1) Extent of participation by Parents/ VECs /Panchayats /Urban bodies in daily supervision, monitoring, participation	Discussion with head teacher, teacher, VEC, Gram Panchayat members
	In 39 sample schools, parents supervise and monitor the MDM (everyday in 01 school and occasionally in the rest 38 schools). In 39 sample schools, SMC have supervised and monitored MDM (everyday in 08 schools & occasionally in 31 schools). PRI/ULB have supervised and monitored MDM occasionally in 28 schools and have not at all supervised MDM in 12 schools (For schools wise details, see Table 12.1, page 30).	
	2) Any roster maintained by community for supervision of MDM?	
	In all 40 schools roster is not maintained for supervising MDM. (Table 12.1).	
	3) (a) opinion of community on quantity of MDM per child at primary level	
In none of the 40 sample schools, the community has opined that the quantity of MDM per child at primary level is poor (For school wise details, see Table 12.2 at page 31).		

	<p>(b) Opinion of community on quantity of MDM per child at upper primary level.</p> <p>In none of the sample Upper Primary schools, the community has opined that the quantity of MDM per child at upper primary level is poor (For school wise details, see Table 12.2)</p> <p>(c) Overall impression of MDM programme.</p> <p>In none of the 40 schools, the overall impression of community on MDM is average (Table 12.2). Community has appreciated the weekly menu and the policy of providing hot cooked meal everyday.</p> <p>(d) From where do you know about MDM.</p> <p>The community has known about MDM from the teachers. (For school wise details, see Table 12.2).</p>	
17.	<p>INSPECTION & SUPERVISION</p> <p>Has the mid day meal programme been inspected by any state/district/block level officers/officials?</p>	<p>School records, discussion with head teacher, teachers, VEC, Gram Panchayat members</p> <p>Since 01-04-12, in 03 schools the Block level officers have inspected the MDM programme. The State level officers and District level officers have visited no and 01 school respectively (For school wise details, see Table 13.1 at page 32). In only 01 case, these officers have given written remarks regarding MDM. The MDM supervision is inadequate in absence of Cluster Level Nodal Officers for MDM. The Block Level Nodal Officer for MDM is the SI of schools. The District Level Nodal Officer is the DI of School, Both of them do not find enough time for regular supervision of MDM at school point. The State has not engaged the CRCCs as the Cluster Nodal Officers for MDM, and hence they do not supervise MDM during their visits to schools.</p>
18.	<p>IMPACT</p> <p>Has the mid day meal improved the enrollment, attendance of children in school, general well being (nutritional status) of children? Is there any other incidental benefits due to serving cooked meal in schools.</p>	<p>School records, discussion with head teacher, teachers, students, VEC, Gram Panchayat members.</p> <p>In 37 out of 40 sample schools, parents, teachers and students have opined that MDM has improved students' enrollment and attendance. In 33 schools they have opined that MDM has improved general health of children. In 19 schools they have opined that MDM has improved nutritional status of children (For school wise details, see Table 14.1 at page 33)</p>

**DISTRICT PROJECT OFFICE,
SARVA SHIKSHA ABHIYAN, ANGUL**

Letter No.: 1390/SSA

Date: 22/2/12

From

District Project Co-ordinator
SSA, Angul

To

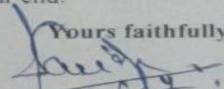

The BRC Coordinators
SSA, Angul, Chhendipada, Banarpal, Pallahara and Kishore Nagar Blocks.

Sub: Monitoring of SSA & MDM activities from 26-07-12 to 05-08-12 ----- regarding

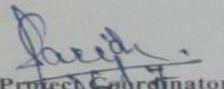

Sir,

In inviting a reference to the subject cited above, I am to inform you that the monitoring team of NKC Centre for Development Studies, Bhubaneswar (Monitoring Institute) shall visit to the 40 sample schools for data collection in your Blocks. You are requested to intimate the HM / SMC / MDM provider of the sample schools to remain present during their visit to school and co-operate in providing necessary data. You are also requested to intimate the matter to the CRCCs of the sample schools in your Block and do the needful at your end.

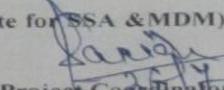

Yours faithfully

District Project Co-ordinator
SSA, Angul

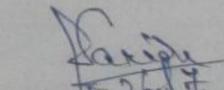

Memo. No. 1391 // Dated. 22/2/12 //
Copy submitted to Addl. Director (Planning), OPEPA for favour of kind information

GANJAM DISTRICT

Introduction:

Ganjam District is located in the southern region of ODISHA State. It has 3596 number of schools covered under SSA (DISE 2011-12 data from DPO). The District office concerned with MDM scheme is located at Chhatrapur town. In order to implement MDM activities, District as well as Block level officials have been engaged. Besides, the teachers, SMC members and PRI members are also allowed to supervise the MDM scheme at school level. As per the MDM guidelines, rice is provided to the SHG/SMC who prepares and provides MDM purchasing dal, egg, mealmakers, vegetables and fuel. Each school is to get the cooking cost in advance every month and produce the expenditure statement along with vouchers to the Block office every month for release of the expenditure amount.

Procedure and criteria adopted for selection of sample schools:

As per the MoU and ToR, 40 schools have been identified in discussion with the DPO staffs of Sarva Shiksha Abhiyan of the District on 6-8-12 for monitoring of MDM activities at school level. The guidelines mentioned in the ToR have been followed for school selection. The 40 schools include 8 urban schools and 32 rural schools. The school wise details of criteria basing upon which the sample schools have been identified have been reflected in the DPO's **letter no. 3366 dtd. 6-8-12** placed at page 46. Out of the 40 sample schools, 38 have primary schooling and 18 have upper primary schooling. Each of the 40 sample schools has been visited by 01 of the members of the monitoring team who has spent 01 full day at the school to collect the MDM related data as per the format prescribed by the MHRD, GoI. The Nodal Officer has also visited one-third of the 40 sample schools as per the ToR. The data have been obtained by interacting with children, teachers, Cook, Helper, SHG/SMC/NGO providing MDM at school point and by observing the process of MDM preparation, storage and distribution. The data then have been cross-checked, cleaned and tabulated for analysis in respect of different aspects of the MDM scheme.

Mid-Day Meal Scheme:

(i)	Name of the Monitoring Institution	NCDS
(ii)	Period of the report	1-4-12 to 30-09-12
(iii)	Name of the District	GANJAM
(iv)	Date of visit to the Districts/Schools	6-8-12 to 11-8-12

1.	<p><u>REGULARITY IN SERVING MEAL:</u> Whether the school is serving hot cooked meal daily? If there was interruption, what was the extent and reasons for the same?</p>		<p>Students, Teachers & Parents</p>	
	<p>The MI has visited 40 schools and has found that hot cooked meal is served in every school. In none of these schools since 1-4-12 provision of MDM has been stopped (for school wise details, see Table 1.1 at page 49).</p>			
2.	<p><u>TRENDS:</u> Extent of variation (As per school records vis-à-vis Actuals on the day of visit)</p>		<p>School level registers, MDM Registers Head Teachers, Schools level MDM functionaries / Observation of the monitoring team.</p>	
	No.	Details		On the day of visit
	i.	Enrollment		8737
	ii.	No. of children opted for MDM		8737
	iii.	No. of children attending the school on the day of visit		6217
	iv.	No. of children availing MDM as per MDM Register		-
	v.	No. of children actually availing MDM on the day of visit		5,498
<p>In the 40 sample schools, 8737 children had been enrolled and for all of them MDM provision has been made by the government. On the date of MI's visit to these schools, 6217 (71.2%) children had attended the schools. but 5,498 (62.9%) had taken MDM. In all 40 schools, some children had not attended the school on the day of visit of MI. There is neither any process nor any mechanism followed in each school and the District to record the reasons for non-attendance of the children. No systematic measure has been taken by the SMC to raise the percentage of attendance of children. Further, the District has not taken any step to identify the cases of double / fake enrollment and delete their names from the students' attendance register. In our MDM reports for the 2nd half year of 2010-11 and the 1st half year of 2011-12,</p>				

the State had been requested to make a study on students' absenteeism and take appropriate measures to reduce it but it appears that the District has not taken any such steps. However, on enquiry to the HM, some preliminary information have been obtained. For instance, in Basanapalli PS, it was found that A. Deepak Murti of Class III is a long absentee and the HM said that he has enrolled himself in another school but has not taken T.C. But when enquired about G. Mangulu of Class III who is also a long absentee, the same HM had expressed that he did not know the reason for it. The case of Tarini Naik of Class VIII of Chikalakhandi UGHS is different. He is a long absentee and the HM says that he does not come to school because he is engaged in some work to earn for his family. It was also reported by the HM of Gedalpalli PS that B. Devraj Patro and K. Harekrushna Patro of Class V have gone to Surat along with their parents and hence they are long absentees. On the other hand, D. Balakrushna Reddy is a long absentee because he has migrated from Gedalpalli to Jhadukuda.

The case of T. Somanath Reddy of Class I of Tellapalli PS needs a special mention. Being a CWSN, he is unable to come to school and hence has become a long absentee. Despite special provision for the CWSN in the RTE Act, Somanath has not yet got the required support to come to school regularly.

The cases of Anshuman Das and Abinash Das of Class IV of Ramchandrapur PS are also peculiar. The HM admits that these two children are long absentees because they have gone to their uncle's house after the death of their father but their names have not been struck off from the Enrollment Register.

The above evidences indicate that some of the children not coming to school are long absentees. At least the District should take appropriate measure to identify the long absentees and their names be struck off from the Enrollment Register following proper procedure.

When a comparison has been made between the 08 urban schools and the 32 rural schools, it is observed that the student absenteeism is 27.1% in rural schools and 35.2% in urban schools. This reveals that the extent of student absenteeism is much less in rural than in urban areas. An in-depth study can only help in unraveling the vicious nexus that compel children not to come to schools despite several school based activities being done under SSA as well as MDM programme. It may also reveal occurrence of any gap in the policy or implementation stage. The District MDM unit should promote a research study in this regard using the prescribed MME grant.

In addition, 8.3% children, who had attended the schools, had not taken MDM. These children belong to 25 schools (Table 2.1 at page 50).These children did not take MDM for varied reasons. For instance, in Purunapatana PS, Anjali Nayak of Class IV and Jagdish Nayak of same class go to home to take food in recess and hence do not take MDM at school. On the other hand, Kusum Gouda and Rojalin Gouda of Class IV did not eat MDM on the visit day of MI because the Dalma was bit more salty in taste. In Ckikalkhandi UGHS, Sipu Sahoo of Class VII did not take MDM on 6-8-12 because he had not brought plate to take MDM. AT Telapalli PS, on 6-8-12, B. Deepak Patra and M. Gopi Reddy of Class IV did not eat MDM because they went home for lunch. Further it is observed that in some schools plates and glasses are not available. Moreover, the school gates are not closed during the time of recess to prevent children to go home to take food. Consequently, some children fail to eat MDM in absence of utensils whereas some children go home to bring utensils to eat MDM. Owing to latter situation, children take time beyond the recess hour for consumption of MDM.

In Ganjam District, one NGO named Nandi Foundation is providing MDM preparing from its centralized kitchen to schools of Berhampur Municipality, Chhatrapur NAC and Chhatrapur Block areas. Out of the 40 schools monitored, Nandi Foundation provides MDM to 15 schools whereas in the rest 25 schools, either SMC or SHG prepare MDM.

In none of the 15 schools where Nandi Foundation provides MDM, the food items are cooked as per the Weekly menu prescribed by the State. Further, it is unable to cook MDM as per the number of children willing to eat MDM everyday since the cooking process begins much before the school time. In view of this, the number of children taken MDM in a day never matches the number of children for whom it claims to have provided MDM. The latter is always greater than the former. Thus it claims to have served for more number of children than the number of children for whom it actually supplies MDM, MDM is thus grossly mismanaged by the NGOs and hence they should not be encouraged to provide MDM to schools of rural areas.

Besides, there are 13 (52%) out of the rest 25 schools, where the quantum of rice is cooked either more or less than what is required for the number of children actually taken MDM (See Table 2.1 for details). This occurs in those schools who do not have a digital weighing machine to measure the quantity of rice to be cooked. In schools where rice is cooked more than the requirement, the surplus rice is taken away by the Cook/Helper.

<p><u>REGULARITY IN DELIVERING FOOD GRAINS TO SCHOOL LEVEL:</u></p> <p>(iii) Is school receiving food grain regularly? If there is delay in delivering food grains, what is the extent of delay and reasons for the same?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>
<p>Out of the 40 sample schools, only 01 school has received rice regularly since 1-4-12 (For school wise details, see Table 3.1 at page 52). In case of 19 schools the reason of delay is found to be availability of rice stock. This has occurred because these schools have received rice for several months at a time. In 15 schools, the delay could not be assessed because MDM register is not available. It is kept by the NGO at its office.</p>	
<p>(iv) Is buffer stock of one-month's requirement is maintained?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries</p>
<p>There is a buffer stock of one month's requirement of rice only in 6 out of the 24 sample schools where MDM register is available (For school wise details see, Table 3.1). It is available for every month during April to August 2012. In other 18 schools, buffer stock is available for 01 or 02 months during this period. In 15 schools, the NGO, Nandi Foundation has not kept the MDM register at school point.</p>	
<p>3.</p>	<p>(iii) Is the quantity of food grains supplied as per the marked / indicated weight?</p>
<p>In 20 out of 25 sample schools where rice is delivered, rice has been supplied less than the marked weight of the bag (i.e. 50kg). Rice has been received less up to an amount of 1 to 5 kg. per 50 kg. bag (for school wise details see Table 3.1). The Block / District officers have not taken appropriate measures to address this problem. The schools receiving less amount of rice complain that they are compelled to give signature on the receipt to have received 50 kg. of rice per bag. Further, teachers are compelled to receive the rice in such cases. In case of the rest 15 schools, rice is received by the NGO (Nandi Foundation) at its own office.</p>	
<p>(iv) Is the food grains delivered at the school?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries</p>
<p>Rice is delivered at schools in 20 out of 40 sample schools. In case of 05 schools, rice is delivered at SHG houses and in case of 15 schools, it is delivered at NGO's office, (For school wise details, see Table 3.1).</p>	
<p>(v) Is the quality of food grain good?</p>	
<p>In 25 sample schools receiving rice at school point or SHG house, the rice received has been of good quality. (For school wise details, see Table 3.2 at page 54).</p>	

	<p><u>REGULARITY IN DELIVERING COOKING COST TO SCHOOL LEVEL:</u></p> <p>(iv) Is school receiving cooking cost in advance regularly? If there is delay in delivering cooking cost what is the extent of delay and reasons for it?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>
4.	<p>Data on receipt of cooking cost advance was available only at 04 schools and it was noticed that only 01 school has received the cooking cost in advance regularly. These schools have not received since May 2012. The District Nodal Office, MDM has not released it to bank account of the schools. (For school wise details, see Table 4.1 at page 55).</p>	
	<p>(v) In case of delay, how schools manage to ensure that there is no disruption in the feeding programme?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>
	<p>In case of delay, the cooking cost is managed from SHG fund (12 schools), the HM's own fund (07 schools), revolving fund (03 schools), SMC president's own fund (03 schools and NGO fund (15 schools). (For school wise details, see Table 4.1 at page 55)</p>	
	<p>(vi) Is cooking cost paid by Cash or through banking channel?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>
	<p>The cooking cost has been received only through E-transfer in all schools. (For school wise details, see Table 4.1).</p>	
5.	<p><u>SOCIAL EQUITY:</u></p> <p>Did you observe any gender or caste or community discrimination in cooking or serving or seating arrangements?</p>	<p>Observations</p>
	<p>In all sample 40 schools, the MI has not noticed any discrimination in cooking, serving and sitting arrangement for MDM basing upon gender, caste or community (For school wise details, see Table 5.1 at page 56).</p>	
6.	<p><u>VARIETY OF MENU:</u></p> <p>(iv) Has the school displayed its weekly menu, and is it able to adhere to the menu displayed?</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
	<p>None of the 40 sample schools has displayed the weekly menu prescribed by the State Govt. at a visible place. In turn, the menu has been changed by the NGO at 15 sample schools and by the District administration, as stated by the HMs, in 25 schools (For school wise details, see Table 6.1 at page 57). The food items served at schools some days match with those prescribed by the State Govt. in its menu.</p>	
	<p>(v) Is there variety in the food served or is the same food served daily?</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
	<p>In all of the 40 sample schools different food items are provided to children daily.</p>	
	<p>(vi) Does the daily menu include rice / wheat preparation, dal and vegetables?</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>

	<p>In all 40 sample schools, the daily menu includes rice and vegetables every day. Dal is part of daily menu 02 days a week in all schools. Wheat is not given at all (For school wise details, see Table 6.1). In all 40 sample schools, rice and vegetables are served daily.</p>	
7.	<p><u>QUALITY & QUANTITY OF MEAL:</u> Feedback from children on c) Quality of meal:</p>	<p>Observations of Investigation during MDM service</p>
	<p>In all of 40 sample schools, children have appreciated the quality of rice as well as the quality of curry and dal (For school wise details, see Table 7.1 at page 58).</p>	
	<p>d) Quantity of meal:</p>	<p>Observations of Investigation during MDM service</p>
	<p>In all of the 40 sample schools, children have appreciated the quantity of rice as well as the quantity of dal / curry served to them (For schoolwise status see Table 7.1).</p>	
	<p>c) {If children were not happy Please give reasons and suggestions to improve.}</p>	<p>Observations of Investigation during MDM service</p>
<p>See description of items 7 (a) and (b) above.</p>		
8.	<p><u>SUPPLEMENTARY:</u> (ii) Is there school Health Card maintained for each child?</p>	<p>Teachers, Students, School Record</p>
	<p>In 18 out of the 40 sample schools, health cards are available for the children (For school wise details, see Table 8.1 at page 59). But it contains information of the children relating to name, height and weight in some schools. Data relating to illness and health are also not recorded in schools where health check up programme has been conducted for the children. But in Gedalpalli PS, health related data have been mentioned in the health cards of all children.</p>	
	<p>(ii) No. of times health check up of children done since 1-4-2012.</p>	
	<p>Health check up of children has been done in no schools since 1-4-2012. (For school wise details, see Table 8.1). Thus health check up of children has not been regularly done. Malnutrition cases are also not recorded.</p>	
	<p>(iii) Whether children are given micronutrients (Iron, folic acid, vitamin – A dosage) and de-worming medicine periodically?</p>	<p>Teachers, Students, School Record</p>
	<p>In none of the 40 sample schools, iron tablets, Vitamin A tablets have been given periodically (Table 8.1).</p>	
	<p>(iv) Who administers these medicines and at what frequency?</p>	<p>Teachers, Students, School Record</p>
	<p>-</p>	
<p>(v) No. of times these medicines have been given since 1-4-2011.</p>		
<p>Medicines have not been given in any schools, since 1-4-12 (Table 8.1)</p>		

<p><u>STATUS OF COOKS:</u></p> <p>(ii) Who cooks and serves the meal? (Cook/helper appointed by the Department or Self Help Group, or NGO or Contractor)</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
<p>Out of the 40 sample schools, Cook and Helper have been engaged by SHG in 08 schools and in 32 schools by SMC (For school wise details, see Table 9.1 at page 60).</p>	
<p>(ii) Is the number of Cooks and Helpers engaged as per Govt. of India norms?</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
<p>As per the Government of India norms (vide, Lr. F. No. 5-1 / 2010-MDM-2-1 Govt. of India, MHRD, Department of School and Mass Education and Literacy, MDM Division Dt: 30-04-2010), 01 Cook-cum-Helper shall be engaged to a school up to 25 students. 02 Cook-cum-Helpers for schools having 26 to 100 students. And 01 additional Cook-cum-Helper is to be engaged for every addition of 100 students.</p> <p>This norm has been officially followed in Odisha. But except a few schools, the process has not been implemented fully in all schools (For school wise details, see Table 9.1 at page 27). However, in all schools, the existing Cooks and Helpers have not been redesignated as Cook-cum-Helper (For school wise details, see Table 9.1).</p>	
<p>(iii) What is remuneration paid to cooks/helpers?</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
<p>The Cook is paid Rs.600/- per month and the Helper is paid Rs.400/- per month in many sample schools. (For school wise details, see Table 9.1). As per the State Govt's commitment in the 2011 PAB meeting, the Cook-cum-Helper is to get Rs.1000/- per month and in some schools, this payment has already been made.</p>	
<p>(iv) Are the remuneration paid to cooks/helpers regularly?</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
<p>In 04 sample schools the Cooks and Helpers have not got their remuneration regularly. In 05 schools, they have got their remunerations regularly every month since 1-4-12. In case of 07 schools, passbook was not available and in the rest 24 schools, passbook has no information regarding the months of receipt of remuneration (For school wise details, see Table 9.1). It goes against the current MDM rules of the State which says that the Cook and Helper will get their</p>	

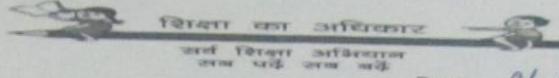

<p>remuneration every month regularly. It was observed that the District/Block office for MDM does not inform in writing the number of months for which salary was released. The Cook and Helper in some schools have got no letter relating to the months for which they have got their salary. They have received the salary in their passbook but do not know for which months they have got it.</p>	
<p>(v) Social Composition of cooks /helpers? (SC/ST/OBE/Minority)</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
<p>In 24 out of the sample 40 schools, the Cook belongs to SC/ ST/ OBC/ minority community. In 27 schools, the Helper belongs to SC/ST/OBC/minority community (For school wise details, see Table 9.1). Thus employment facility is given to the backward communities on priority.</p>	
<p>INFRASTRUCTURE: 1) Is a pucca kitchen shed-cum-store: (f) Constructed and in use (g) Constructed but not in use under (h) Under construction (i) Sanctioned, but constructed not started (j) Not sanctioned Any other (specify)</p>	<p>School records, discussion with head teacher, teacher, VEC, Gram Panchayat members.</p>
<p>10.</p>	<p>24 sample schools have not got the sanction of pucca kitchen shed. In only 02 schools, the pucca kitchen shed-cum-store that has been constructed is in use for both cooking and storing. In 07 schools, it is constructed but not in use for cooking. In 11 schools it is constructed but is not used for storing. In 02 schools, the pucca kitchen-cum store is under construction whereas in no school it is sanctioned but the construction work has not yet been started (For school wise details, see Table 10.1 at page 62).</p>
<p>2. Construction grant received under which scheme?</p>	
<p>All the schools who have got the sanction for constructing the kitchen-cum-store have got it under the MDM or SSA scheme (For school wise details, see Table 10.1).</p>	
<p>3. Reason for not using the constructed kitchen-cum-store for cooking and storing</p>	
<p>The constructed kitchen-cum-store is not used for cooking because of space shortage (03 schools); smoke/ventilation problem (01 school); kitchen used as classroom (02 school) and MDM not cooked at school (01 school). Further, the same is not used for storing because of space shortage (05 school), fear of theft (02 schools) and other reasons (04 schools) (For schools wise details, see Table 10.1). The MI has observed that the kitchen constructed out of Rs. 60,000/- is of very small size. The cooking space available is further reduced because</p>	

	cooking slab has been made and is not used for cooking, Gas chulla is not provided. MDM is cooked in a hearth. The kitchen is not made suitable for hearth based cooking and hence is not used for cooking in many schools especially with a higher students strength.	
11.	In case the pucca kitchen shed is not available, where is the food being cooked and where are the food grains/other ingredients being stored.	Discussion with head teacher, teacher, VEC, Gram Panchayat members, Observation
	<p>There are 33 out of the 40 sample schools where pucca kitchen is not used for cooking MDM. Out of these, in 05 schools MDM is cooked in school verandah. In case of 07 schools, it is cooked in an asbestos/tin/tile roofed house. In 01 school alternative place of cooking is an open space. In 15 schools, the alternative place of cooking is the centralized kitchen of NGO; in 01 school, it is SHG house and in 01 school, it is school store room.</p> <p>There are 20 schools where MDM is not stored in a pucca kitchen-cum-store. In 19 schools, food grains are stored in HM's room / classroom / unused room of school store room. In 02 schools, SHG house is the alternative place of storing (For school wise details, see Table 10.2 at page 63). Whereas in 15 schools, NGO house is the alternative place of storing MDM materials.</p>	
12.	Whether potable water is available for cooking and drinking purpose?	Discussion with head teacher, teacher, VEC, Gram Panchayat members, Observation
	In 38 sample schools, potable water is available for cooking and drinking purpose (For school wise details, see Table 10.2).	
13.	Whether utensils used for kind food are adequate?	Teachers/Organizer of MDM Programme
	In 17 out of 40 sample schools, adequate utensils are available for cooking MDM (For school wise details, see Table 10.2). In 08 schools, utensils available are not adequate whereas in the rest 15 schools, MDM is not cooked at school point but at NGO's kitchen.	
14.	What is the kind of fuel used? (Gas based/ firewood etc.)	Observation
	In all 19 sample schools, firewood is used as fuel. (For school wise details, see Table 10.2). In 06 schools, gas is used as fuel. In 15 schools, MDM is not cooked at school but at centralized kitchen or NGO.	
15.	<u>SAFETY & HYGIENE:</u> ii. General Impression of the environment, Safety and hygiene:	Observation
	In 38 sample schools, clean and safe environment exists (For school wise details, see Table 11.1 at page 64). Every day the school campus and classrooms are cleaned by the students before the children go for a prayer.	
	ii. Are children encouraged to wash hands before and after eating	observation

	<p>In 22 out of 40 sample schools, children are encouraged by the teachers to wash hands using soap and water both before eating MDM. (For school wise details, see Table 11.1). In many schools, the Health Minister/Food Minister of the school cabinet guides the children to soap to wash hands and utensils.</p>	
	<p>iii. Do the children partake meals in an orderly manner?</p>	<p>observation</p>
	<p>In 35 sample schools children are seen to partake MDM in an orderly manner (Table 11.1). The orderliness is managed by teachers and the school cabinet formed by the children.</p>	
	<p>iv. Conservation of water?</p>	<p>Observation</p>
	<p>In all of the 40 sample schools, children are found to conserve water while washing hands and utensils (For school wise details, see Table 11.1).</p>	
	<p>v. Is the cooking process and storage of fuel safe, not posing any fire hazard?</p>	<p>observation</p>
	<p>In 25 sample schools, cooking and storage places are found to be safe from any fire hazard (Table 11.1). In the rest 15 schools, MDM is not cooked at school but at centralized kitchen of NGO.</p>	
16.	<p>COMMUNITY PARTICIPATION: 1) Extent of participation by Parents/ VECs /Panchayats /Urban bodies in daily supervision, monitoring, participation</p>	<p>Discussion with head teacher, teacher, VEC, Gram Panchayat members</p>
	<p>In 38 sample schools, parents supervise and monitor the MDM (in all schools occasionally). In all 40 sample schools SMC have supervised and monitored MDM (everyday in 08 schools & occasionally in 32schools). PRI/ULB have supervised and monitored MDM occasionally in 23 schools and have not at all supervised MDM in 17 schools (For schools wise details, see Table 12.1, page 65).</p>	
	<p>2) Any roster maintained by community for supervision of MDM?</p>	
	<p>In all 40 schools roster is not maintained for supervising MDM. (Table 12.1).</p>	
	<p>3) (a) opinion of community on quantity of MDM per child at primary level</p>	
	<p>In none of the 40 sample schools, the community has opined that the quantity of MDM per child at primary level is poor (For school wise details, see Table 12.2 at page 66).</p>	
	<p>(b) Opinion of community on quantity of MDM per child at upper primary level.</p>	
	<p>In none of the sample Upper Primary schools, the community has opined that the quantity of MDM per child at upper primary level is poor in respect of dal (For school wise details, see Table 12.2).</p>	
<p>(c) Overall impression of MDM programme.</p>		

	<p>In none of the 40 schools, the overall impression of community on MDM is average (Table 12.2). Community has appreciated the weekly menu and the policy of providing hot cooked meal everyday.</p>	
	<p>(d) From where do you know about MDM.</p>	
	<p>The community has known about MDM from various sources like news paper and teacher. (For school wise details, see Table 12.2).</p>	
	<p>INSPECTION & SUPERVISION</p> <p>Has the mid day meal programme been inspected by any state/district/block level officers/officials?</p>	<p>School records, discussion with head teacher, teachers, VEC, Gram Panchayat members</p>
17.	<p>Since 01-04-12, in only 01 school the Block level officers have inspected the MDM programme. The State level officers and District level officers have visited no and 01 school respectively (For school wise details, see Table 13.1 at page 67). In only 02 cases, these officers have given written remarks regarding MDM. The MDM supervision is inadequate in absence of Cluster Level Nodal Officers for MDM. The Block Level Nodal Officer for MDM is the SI of schools. The District Level Nodal Officer is the DI of School, Both of them do not find enough time for regular supervision of MDM at school point. The State has not engaged the CRCCs as the Cluster Nodal Officers for MDM, and hence they do not supervise MDM during their visits to schools.</p>	
	<p>IMPACT</p> <p>Has the mid day meal improved the enrollment, attendance of children in school, general well being (nutritional status) of children? Is there any other incidental benefits due to serving cooked meal in schools.</p>	<p>School records, discussion with head teacher, teachers, students, VEC, Gram Panchayat members.</p>
18.	<p>In 29out of 40 sample schools, parents, teachers and students have opined that MDM has improved students' enrollment and attendance. In 21 schools they have opined that MDM has improved general health of children. In 17 schools they have opined that MDM has improved nutritional status of children (For school wise details, see Table 14.1 at page 68).</p>	

DISTRICT PROJECT OFFICE,
SARVA SHIKSHA ABHIYAN, GANJAM.

Letter No.: 3366

Date: 06/08/12

From
District Project Co-ordinator,
SSA, Ganjam.

To
All the BRC Coordinators
SSA, Ganjam.

Sub: **Monitoring of SSA & MDM activities during** ----- regarding

Sir,

In inviting a reference to the subject cited above, I am to inform you that the monitoring team of NKC Centre for Development Studies, Bhubaneswar (Monitoring Institute) shall visit to the 40 schools for data collection. You are requested to intimate the HM / SMC / MDM provider of the concerned schools to remain present during their visit to school and co-operate in providing necessary data. You are also requested to intimate the matter to selected CRCCs of your Block and do the needful at your end.

Yours faithfully,

District Project Coordinator,
SSA, Ganjam.

Memo. No. 3367 // Dated 06/08/12 //

Copy submitted to Addl. Director (Planning), OPEPA for favour of kind information.

District Project Coordinator,
SSA, Ganjam.

✓ Memo. No. 3368 // Dated 06/08/12 //

Copy submitted to Dr. P. K. Acharya, Nodal officer, NKCCDS (Gol Monitoring Institute for SSA & MDM), Bhubaneswar for kind information & necessary action.

District Project Coordinator,
SSA, Ganjam.

Memo. No. 3369 // Dated 06/08/12 //

Copy submitted to P.A. to Collector, Ganjam for favour of kind information of Collector.

District Project Coordinator,
SSA, Ganjam.

Memo. No. 3370 // Dated 06/08/12 //

Copy to D.I. of schools, Chhatrapur / Berhampur / Aska / Bhanjanagar for information & necessary action.

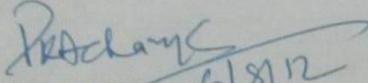

District Project Coordinator,
SSA, Ganjam.

40 SAMPLE SCHOOLS FOR MONITORING OF SSA ACTIVITIES & MDM PROGRAMME IN GANJAM DISTRICT ON 6-8-12 BY NKC CENTRE FOR DEVELOPMENT STUDIES, BHUBANESWAR (MONITORING INSTITUTE)

Sl. No.	Name of School	Name of the Block / ULB	Category	Date of Visit	Remark
1.	Rikapalli UPS	Chhatrapur NAC	KGBV	6-8-12

RAYAGADA DISTRICT

Introduction:

Rayagada District is located in the southern region of ODISHA State. It has **2089** number of schools covered under SSA (DISE 2011-12 of DPO). The District office concerned with MDM scheme is located at Rayagada town. In order to implement MDM activities, District as well as Block level officials have been engaged. Besides, the teachers, SMC members and PRI members are also allowed to supervise the MDM scheme at school level. As per the MDM guidelines, rice is provided to the SHG/SMC who prepares and provides MDM purchasing dal, egg, mealmakers, vegetables and fuel. Each school is to get the cooking cost in advance every month and produce the expenditure statement along with vouchers to the Block office every month for release of the expenditure amount.

Procedure and criteria adopted for selection of sample schools:

As per the MoU and ToR, 40 schools have been identified in discussion with the DPO staffs of Sarva Shiksha Abhiyan of the District on 17-08-12 for monitoring of MDM activities at school level. The guidelines mentioned in the ToR have been followed for school selection. The 40 schools include 8 urban schools and 32 rural schools. The school wise details of criteria basing upon which the sample schools have been identified have been reflected in the DPO's **letter no. 3319 dtd. 17-08-12** placed at page **80**. Out of the 40 sample schools, 38 schools have primary schooling and 20 have upper primary schooling. Each of the 40 sample schools has been visited by 01 of the members of the monitoring team who has spent 01 full day at the school to collect the MDM related data as per the format prescribed by the MHRD, GoI. The Nodal Officer has also visited one-third of the 40 sample schools as per the ToR. The data have been obtained by interacting with children, teachers, cook, helper, SHG/SMC/NGO providing MDM at school point and by observing the process of MDM preparation, storage and distribution. The data then have been cross-checked, cleaned and tabulated for analysis in respect of different aspects of the MDM scheme.

Mid-Day Meal Scheme:

(i)	Name of the Monitoring Institution	NCDS
(ii)	Period of the report	01-04-12 to 30-09-12
(iii)	Name of the District	RAYAGADA
(iv)	Date of visit to the Districts/Schools	17-08-12 to 23-08-12

1.	<p><u>REGULARITY IN SERVING MEAL:</u> Whether the school is serving hot cooked meal daily? If there was interruption, what was the extent and reasons for the same?</p>	Students, Teachers & Parents																		
	<p>The MI has visited 40 schools and has found that hot cooked meal is served in all except one school. In none of these schools since 1-4-12 provision of MDM has been stopped for any day (for school wise details, see Table 1.1 at page 82). At Komatalpeta UPS, MDM provision has not been started at all because no SHG agreed to manage MDM. The SMC has taken initiative to manage MDM provision.</p>																			
2.	<p><u>TRENDS:</u> Extent of variation (As per school records vis-à-vis Actuals on the day of visit)</p> <table border="1"> <thead> <tr> <th>No.</th> <th>Details</th> <th>On the day of visit</th> </tr> </thead> <tbody> <tr> <td>i.</td> <td>Enrollment</td> <td>6896</td> </tr> <tr> <td>ii.</td> <td>No. of children opted for MDM</td> <td>6824</td> </tr> <tr> <td>iii.</td> <td>No. of children attending the school on the day of visit</td> <td>4655</td> </tr> <tr> <td>iv.</td> <td>No. of children availing MDM as per MDM Register</td> <td>-</td> </tr> <tr> <td>v.</td> <td>No. of children actually availing MDM on the day of visit</td> <td>4293</td> </tr> </tbody> </table>	No.	Details	On the day of visit	i.	Enrollment	6896	ii.	No. of children opted for MDM	6824	iii.	No. of children attending the school on the day of visit	4655	iv.	No. of children availing MDM as per MDM Register	-	v.	No. of children actually availing MDM on the day of visit	4293	<p>School level registers, MDM Registers Head Teachers, Schools level MDM functionaries / Observation of the monitoring team.</p>
	No.	Details	On the day of visit																	
i.	Enrollment	6896																		
ii.	No. of children opted for MDM	6824																		
iii.	No. of children attending the school on the day of visit	4655																		
iv.	No. of children availing MDM as per MDM Register	-																		
v.	No. of children actually availing MDM on the day of visit	4293																		
<p>In the 40 sample schools, 6896 children had been enrolled and for all of them MDM provision has been made by the government. On the date of MI's visit to these schools, 4655 (67.6%) children had attended the schools but 4293 (62.3%) had taken MDM. In all 40 schools, some children had not attended the school on the day of visit of MI. The teachers could not say correctly the reasons for which those children had remained absent from school. There is neither any process nor any mechanism followed in each school and the District to record the reasons for non-attendance of the children. No systematic measure</p>																				

	<p>has been taken by the SMC to raise the percentage of attendance of children. Further, the District has not taken any step to identify the cases of double / fake enrollment and delete their names from the students' attendance register. In our MDM reports for the 2nd half year of 2010-11 and 1st half year of 2011-12, the State had been requested to make a study on students' absenteeism and take appropriate measures but it appears that the District has not taken such steps.</p> <p>In addition, 5.3% children who had attended the schools, had not taken MDM. These children belong to 13 schools (Table 2.1 at page 83). In all these 13 schools, some children did not take MDM for varied reasons. For instance, in Amalabhata Chhaka PS, Barsha Dakua, Swapnarani Behera and Arjun Sunari of class III and Rupali Goud of class II could not eat MDM on 17-08-12 because they had not brought plates from home and the school had no plates to provide. In Dombosara Kanyashrama, Tirang Sabar of Class IV, Pratima Bhuyan of class V and Namita Pallia of Class VII did not eat MDM on 22-08-12 due to illness. In BadaChandili PUPS, Purnima Pedanti and Anusa Pedanti of Class IV and Sanjana Mandangi of Class III did not eat MDM on 17-08-12 because they had brought tiffin from home. On 17-08-12 at Naidupeta Ps, Mehnaz Begum of Class IV and Imtiaz Ali of Class III did not eat MDM because of Ramzan. On 18-08-12 (Saturday) some Telugu children of Ex-Board Bilingual PS (e.g. Preamsai of Class II, S. Saikumar of Class V, T. Behulrani of Class III) did not eat MDM because they do not take egg curry prepared on that day in MDM.</p> <p>There are 23 schools where the amount of rice cooked for MDM was not as per the prescribed amount of rice for the children actually taken MDM (Table 2.1). In 10 schools, the amount cooked was less than the prescribed amount whereas in 13 schools it was the opposite situation. In latter case, the surplus rice is taken away by the Cook and Helper.</p>	
3.	<p><u>REGULARITY IN DELIVERING FOOD GRAINS TO SCHOOL LEVEL:</u></p> <p>(v) Is school receiving food grain regularly? If there is delay in delivering food grains, what is the extent of delay and reasons for the same?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>

	<p>Out of the 38 sample schools, no schools have received rice regularly every month since 1-4-12 (For school wise details, see Table 3.1 at page 84). In case of all these schools the reason of delay is found to be either official or availability of stock. Extent of delay in receiving foodgrains is normally found to be within 01 to 04 months. Dal, vegetable, mealmaker and eggs are procured from local markets. There is only delay in supply of rice to all these schools.</p>	
	<p>(vi) Is buffer stock of one-month's requirement is maintained?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries</p>
	<p>There is a buffer stock of one month's requirement of rice in 22 out of the 40 sample schools (For school wise details see, Table 3.1).</p>	
	<p>(iii) Is the quantity of food grains supplied as per the marked / indicated weight?</p>	
	<p>In 24 out of 40 sample schools, rice has been supplied less than the marked weight of the bag (i.e. 50kg). Rice has been received less up to an amount of 2 to 8 kg. per 50 kg. bag (for school wise details see Table 3.1). The Block / District officers have not taken appropriate measures to address this problem. The schools receiving less amount of rice complain that they are compelled to give signature on the receipt to have received 50 kg. of rice per bag. Further, teachers are compelled to receive the rice in such cases. In 02 schools, MDM service has not been started.</p>	
	<p>(iv) Is the food grains delivered at the school?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries</p>
	<p>Rice is delivered at schools in 34 out of 40 sample schools. In case of 04 schools, rice is delivered at SHG houses, (For school wise details, see Table 3.1). In 02 schools, MDM service has not been started.</p>	
	<p>(v) Is the quality of food grain good?</p>	
	<p>In 38 sample schools, the rice received has been of good quality. (For school wise details, see Table 3.2 at page 86). In 02 schools, MDM is not served at all.</p>	
4.	<p><u>REGULARITY IN DELIVERING COOKING COST TO SCHOOL LEVEL:</u> (vii) Is school receiving cooking cost in advance regularly? If there is delay in delivering cooking cost what is the extent of delay and reasons for it?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>

	<p>Not a single out of the 40 sample schools so far has received the cooking cost in advance regularly. The extent of delay of receiving the cooking cost was 05 months. The main reasons of delay are noticed to be official delay. (For school wise details, see Table 4.1 at page 87).</p>	
	<p>(viii) In case of delay, how schools manage to ensure that there is no disruption in the feeding programme?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>
	<p>In case of delay, the cooking cost is managed from SHG fund (17 schools), the HM's own fund (20 schools), Teacher's own fund (01 school) and SMC President's own fund (05 schools) (For school wise details, see Table 4.1 at page 87).</p>	
	<p>(ix) Is cooking cost paid by Cash or through banking channel?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>
	<p>The cooking cost has been received only through E-transfer in all schools. (For school wise details, see Table 4.1).</p>	
5.	<p><u>SOCIAL EQUITY:</u> Did you observe any gender or caste or community discrimination in cooking or serving or seating arrangements?</p>	<p>Observations</p>
	<p>In all sample 38 schools, the MI has noticed equity and no discrimination in cooking, serving and sitting arrangement for MDM basing upon gender, caste or community (For school wise details, see Table 5.1 at page 88).</p>	
6.	<p><u>VARIETY OF MENU:</u> (vii) Has the school displayed its weekly menu, and is it able to adhere to the menu displayed?</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
	<p>29 out of the 40 sample schools have displayed their weekly menu at a visible place. This menu has been prepared by the State Government and strictly followed by 38 sample schools where MDM is prepared everyday as per the given weekly menu. (For school wise details, see Table 6.1 at page 89).</p>	
	<p>(viii) Is there variety in the food served or is the same food served daily?</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
	<p>In all of the 38 sample schools different food items are provided to children daily. The food items have been decided by the State Government keeping in view the nutritional requirement of the children.</p>	

	(ix) Does the daily menu include rice / wheat preparation, dal and vegetables?	Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.
	In all 38 sample schools, the daily menu includes rice and vegetables every day. Dal is part of daily menu 02 days a week in all schools. Wheat is not given at all (For school wise details, see Table 6.1). In all 40 sample schools, rice and vegetables are served daily.	
7.	<u>QUALITY & QUANTITY OF MEAL:</u> Feedback from children on e) Quality of meal:	Observations of Investigation during MDM service
	In 38 sample schools, children have appreciated the quality of rice and in 38 schools, children have also appreciated the quality of curry and dal (For school wise details, see Table 7.1 at page 90). In 02 schools, MDM is not prepared at all.	
	f) Quantity of meal:	Observations of Investigation during MDM service
	In 38 sample schools, children have appreciated the quantity of rice as well as the quantity of dal / curry served to them (For schoolwise status see Table 7.1).	
	c) {If children were not happy Please give reasons and suggestions to improve.}	Observations of Investigation during MDM service
See description of items 7 (a) and (b) above.		
8.	<u>SUPPLEMENTARY:</u> (iii) Is there school Health Card maintained for each child?	Teachers, Students, School Record
	In 25 out of the 40 sample schools, health cards are available for the children (For school wise details, see Table 8.1 at page 91). But it contains information of the children relating to name, height and weight in some schools. Data relating to illness and health are recorded in schools where health check up programme has been conducted for the children.	
	(ii) No. of times health check up of children done since 1-4-2012.	
	Health check up of children has been done in 03 schools since 1-4-2012. Among them it has been done only once in 01 school, 2 times in 01 school and 3 times in 01school. 37 schools are yet to get the health check up benefit (for school wise details, see Table 8.1). Thus health check up of children is not regularly done. Malnutrition cases are not recorded.	
	(iii) Whether children are given micronutrients (Iron, folic acid, vitamin – A dosage) and deworming medicine periodically?	Teachers, Students, School Record
In none of the 40 sample schools, iron tablets; Vitamin A tablets and deworming tablets have been given periodically (Table 8.1) although in 02 schools medicines have been given.		

(iv) Who administers these medicines and at what frequency?	Teachers, Students, School Record
The medicines have been provided by the State Government.	
(v) No. of times these medicines have been given since 1-4-2012.	
Medicines have been given once in 01 school and 04 times in 01 school and not given in rest 38 schools. (Table 8.1)	
<u>STATUS OF COOKS:</u> (iii) Who cooks and serves the meal? (Cook/helper appointed by the Department or Self Help Group, or NGO or Contractor)	Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.
Out of the 40 sample schools, Cook and Helper have been engaged by SHG in 08 schools and in 30 schools by SMC (For school wise details, see Table 9.1 at page 92). In 02 schools MDM is not served at all.	
(ii) Is the number of Cooks and Helpers engaged as per Govt. of India norms?	Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.
<p>As per the Government of India norms (vide, Lr. F. No. 5-1 / 2010-MDM-2-1 Govt. of India, MHRD, Department of School and Mass Education and Literacy, MDM Division Dt: 30-04-2010), 01 Cook-cum-Helper shall be engaged to a school up to 25 students. 02 Cook-cum-Helpers for schools having 26 to 100 students. And 01 additional Cook-cum-Helper is to be engaged for every addition of 100 students.</p> <p>This norm has been followed in Odisha. But at school level, Cook-cum-Helper have not been engaged as per the GoI norm. Besides, the existing Cook and Helper have not been redesignated as Cook-cum-Helper (For school wise details, see Table 9.1 at page 92).</p>	
(iii) What is remuneration paid to cooks/helpers?	Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.
Till March 2012, the Cook is paid Rs.600/- per month and the Helper is paid Rs.400/- per month in all sample schools. (For school wise details, see Table 9.1). As per the State Govt's decisions, the Cook-cum-Helper is to get Rs.1000/- per month since 1-4-12 but the District has not yet implemented it.	
(iv) Are the remuneration paid to cooks/helpers regularly?	Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.

	<p>In all 40 sample schools the Cooks and Helpers are not getting their remuneration regularly. They have not got their remunerations since April 2012. (For school wise details, see Table 9.1). It goes against the current MDM rules of the State which says that the Cook-cum-Helper will get their remuneration every month regularly. It was observed that the District/Block office for MDM does not inform in writing the number of months for which salary was released. The Cook and Helper in some schools have got no letter relating to the months for which they have got their salary. They have received the salary in their passbook but do not know for which months they have got it.</p>	
	<p>(v) Social Composition of cooks /helpers? (SC/ST/OBE/Minority)</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
	<p>In 33 out of the sample 40 schools, the Cook belongs to SC/ ST/ OBC/ minority community. In 33 schools, the Helper belongs to SC/ST/OBC/minority community (For school wise details, see Table 9.1). Thus employment facility is given to the backward communities on priority.</p>	
<p>10.</p>	<p><u>INFRASTRUCTURE:</u> 1) Is a pucca kitchen shed-cum-store: (k) Constructed and in use (l) Constructed but not in use under (m) Under construction (n) Sanctioned, but constructed not started (o) Not sanctioned Any other (specify)</p>	<p>School records, discussion with head teacher, teacher, VEC, Gram Panchayat members.</p>
	<p>33 sample schools have got the sanction of pucca kitchen shed. In 09 schools, the pucca kitchen shed-cum-store that has been constructed is in use for both cooking and storing. In 14 schools, it is constructed but not in use for cooking. In 17 schools it is constructed but is not used for storing rice/fuel/other MDM items. In 01 school, the pucca kitchen-cum store is under construction whereas in 03 schools it is sanctioned but the construction work has not yet been started (For school wise details, see Table 10.1 at page 93).</p>	
	<p>2. Construction grant received under which scheme?</p>	
	<p>All the schools who have got the sanction for constructing the kitchen-cum-store have got it under the MDM or SSA scheme (For school wise details, see Table 10.1).</p>	
	<p>3. Reason for not using the constructed kitchen-cum-store for cooking and storing</p>	

	<p>The constructed kitchen-cum-store is not used for cooking because of space shortage (09 schools); smoke/ventilation problem (02 schools); other reasons (03 schools) and no provision for hearth (01 school). Further, the same is not used for storing because of space shortage (09 schools), fear of theft (04 schools) and other reasons (04 schools) (For schools wise details, see Table 10.1). The MI has observed that the kitchen constructed out of Rs. 60,000/- is of very small size. The cooking space available is further reduced because cooking slab has been made and is not used for cooking, Gas chulla is not provided. MDM is cooked in a hearth. The kitchen is not made suitable for hearth based cooking and hence is not used for cooking in many schools especially with a higher student's strength.</p>	
11.	<p>In case the pucca kitchen shed is not available, where is the food being cooked and where are the food grains/other ingredients being stored.</p>	<p>Discussion with head teacher, teacher, VEC, Gram Panchayat members, Observation</p>
	<p>There are 23 out of the 40 sample schools where pucca kitchen is not used for cooking MDM. Out of these, in 12 schools MDM is cooked in school verandah. In case of 06 schools, it is cooked in an asbestos/tin/tile roofed house. In 05 schools alternative place of cooking is either as SMC member's house or hostel kitchen.</p> <p>There are 28 schools where MDM is not stored in a pucca kitchen-cum-store. In 26 schools, food grains are stored in HM's room / classroom / unused room of school/open house/school store room.. In 02 schools, SHG house is the alternative place of storing (For school wise details, see Table 10.2 at page 94).</p>	
12.	<p>Whether potable water is available for cooking and drinking purpose?</p>	<p>Discussion with head teacher, teacher, VEC, Gram Panchayat members, Observation</p>
	<p>In 32 sample schools, potable water is available for cooking and drinking purpose (For school wise details, see Table 10.2).</p>	
13.	<p>Whether utensils used for kind food are adequate?</p>	<p>Teachers/Organizer of MDM Programme</p>
	<p>In 22 out of 40 sample schools, adequate utensils are available for cooking MDM (For school wise details, see Table 10.2)</p>	
14.	<p>What is the kind of fuel used? (Gas based/ firewood etc.)</p>	<p>Observation</p>
	<p>In 37 sample schools, firewood is used as fuel. (For school wise details, see Table 10.2). In 01 school, gas is used as fuel. In 02 schools, MDM is not at all given.</p>	
15.	<p><u>SAFETY & HYGIENE:</u> iii. General Impression of the environment, Safety and hygiene:</p>	<p>Observation</p>
	<p>In 39 sample schools, clean and safe environment exists (For school wise details, see Table 11.1 at page 95). Every day the school campus and classrooms are cleaned by the students before the children go for a prayer.</p>	

	ii. Are children encouraged to wash hands before and after eating	observation
	<p>In 32 out of 40 sample schools, children are encouraged by the teachers to wash hands using soap and water both before and after eating MDM. (For school wise details, see Table 11.1). In many schools, the Health Minister/Food Minister of the school cabinet guides the children to soap to wash hands and utensils.</p>	
	iii. Do the children partake meals in an orderly manner?	observation
	<p>In 38 sample schools children are seen to partake MDM in an orderly manner (Table 11.1). The orderliness is managed by teachers and the school cabinet formed by the children. In 02 schools, MDM is not at all served.</p>	
	iv. Conservation of water?	Observation
	<p>In 32 out of the 40 sample schools, children are found to conserve water while washing hands and utensils (For school wise details, see Table 11.1).</p>	
	v. Is the cooking process and storage of fuel safe, not posing any fire hazard?	observation
	<p>In 38 sample schools, cooking and storage places are found to be safe from any fire hazard (Table 11.1). In 02 schools, MDM is not at all given.</p>	
16.	COMMUNITY PARTICIPATION: 1) Extent of participation by Parents/ VECs /Panchayats /Urban bodies in daily supervision, monitoring, participation	Discussion with head teacher, teacher, VEC, Gram Panchayat members
	<p>In 37 sample schools, parents supervise and monitor the MDM (occasionally in all 37 schools). In all 38 sample schools SMC have supervised and monitored MDM (everyday in 10 schools & occasionally in 28 schools). PRI/ULB have supervised and monitored MDM occasionally in 23 schools and have not at all supervised MDM in rest 17 schools (For schools wise details, see Table 12.1, page 96).</p>	
	2) Any roster maintained by community for supervision of MDM?	
	<p>In all 40 schools roster is not maintained for supervising MDM. (Table 12.1).</p>	
	3) (a) opinion of community on quantity of MDM per child at primary level	
	<p>In none of the 40 sample schools, the community has opined that the quantity of MDM per child at primary level is poor (For school wise details, see Table 12.2 at page 97).</p>	
	(b) Opinion of community on quantity of MDM per child at upper primary level.	
	<p>In none of the schools having upper primary schooling, the community has opined that the quantity of MDM per child at upper primary level is poor (For school wise details, see Table 12.2).</p>	
	(c) Overall impression of MDM programme.	

	<p>In none of the 40 schools, the overall impression of community on MDM is average (Table 12.2). Community has appreciated the weekly menu and the policy of providing hot cooked meal everyday.</p>	
	<p>(d) From where do you know about MDM.</p>	
	<p>The community has known about MDM from various sources like news paper, and teacher. (For school wise details, see Table 12.2).</p>	
17.	<p>INSPECTION & SUPERVISION Has the mid day meal programme been inspected by any state/district/block level officers/officials?</p>	<p>School records, discussion with head teacher, teachers, VEC, Gram Panchayat members</p>
	<p>Since 01-04-12, in only 01 school the Block level officers have inspected the MDM programme. The State level officers and District level officers have visited no and 03 schools respectively (For school wise details, see Table 13.1 at page 98). In only 01 case, these officers have given written remarks regarding MDM. The MDM supervision is inadequate in absence of Cluster Level Nodal Officers for MDM. The Block Level Nodal Officer for MDM is the SI of schools. The District Level Nodal Officer is the DI of School, Both of them do not find enough time for regular supervision of MDM at school point. The State has not engaged the CRCCs as the Cluster Nodal Officers for MDM, and hence they do not supervise MDM during their visits to schools.</p>	
18.	<p>IMPACT Has the mid day meal improved the enrollment, attendance of children in school, general well being (nutritional status) of children? Is there any other incidental benefits due to serving cooked meal in schools.</p>	<p>School records, discussion with head teacher, teachers, students, VEC, Gram Panchayat members.</p>
	<p>In 32 out of 40 sample schools, parents, teachers and students have opined that MDM has improved students' enrollment and attendance. In 26 schools they have opined that MDM has improved general health of children. In 22 schools they have opined that MDM has improved nutritional status of children (For school wise details, see Table 14.1 at page 99).</p>	

**DISTRICT PROJECT OFFICE,
SARVA SHIKSHA ABHIYAN, RAYAGADA**

Letter No.: _____

Date: _____

From

**Sri Laxmikanta Behera
District Project Co-ordinator,
RTE-SSA, Rayagada.**

To

All the B.R.C. Coordinators
SSA, Rayagada.

Sub: Monitoring of SSA & MDM activities during 17-8-12 to 23-8-12 --- regarding.

Sir,

In inviting a reference to the subject cited above, I am to inform you that the monitoring team of NKC Centre for Development Studies, Bhubaneswar (Monitoring Institute) shall visit to the selected 40 schools (copy enclosed) for data collection. You are requested to intimate the HM / SMC / MDM provider of the concerned schools to remain present during the date of their visit to school and co-operate in providing necessary data. You are also requested to intimate the matter at all CRC of your Block and do the needful at your end.

Yours faithfully

District Project Coordinator
RTE-SSA, Rayagada

*1) No. of schools where parents, teachers and students have opined that MDM has improved students' enrollment and attendance = 32

2) No. of schools where parents, teachers and students have opined that MDM has improved general health of children = 26

3) No. of schools where parents, teachers and students have opined that MDM has improved nutritional status of children =22

GAJAPATI DISTRICT

Introduction:

Gajapati District is located in the southern region of ODISHA State. It has 1444 number of schools covered under SSA (DISE 2011-12 data from DPO). The District office concerned with MDM scheme is located at Parlakhemundi town. In order to implement MDM activities, District as well as Block level officials have been engaged. Besides, the teachers, SMC members and PRI members are also allowed to supervise the MDM scheme at school level. As per the MDM guidelines, rice is provided to the SHG/SMC who prepares and provides MDM purchasing dal, egg, mealmakers, vegetables and fuel. Each school is to get the cooking cost in advance every month and produce the expenditure statement along with vouchers to the Block office every month for release of the expenditure amount.

Procedure and criteria adopted for selection of sample schools:

As per the MoU and ToR, 40 schools have been identified in discussion with the DPO staffs of Sarva Shiksha Abhiyan of the District on 23-08-2012 for monitoring of MDM activities at school level. The guidelines mentioned in the ToR have been followed for school selection. The 40 schools include 8 urban schools and 32 rural schools. The school wise details of criteria basing upon which the sample schools have been identified have been reflected in the DPO's **letter dtd. 23-08-12** placed at page **112**. Out of the 40 sample schools, 38 schools have primary schooling and 30 have upper primary schooling. Each of the 40 sample schools has been visited by 01 of the members of the monitoring team who has spent 01 full day at the school to collect the MDM related data as per the format prescribed by the MHRD, GoI. The Nodal Officer has also visited one-third of the 40 sample schools as per the ToR. The data have been obtained by interacting with children, teachers, cook, helper, SHG/SMC providing MDM at school point and by observing the process of MDM preparation, storage and distribution. The data then have been cross-checked, cleaned and tabulated for analysis in respect of different aspects of the MDM scheme.

Mid-Day Meal Scheme:

(i)	Name of the Monitoring Institution	NCDS
(ii)	Period of the report	01-04-12 to 30-09-12
(iii)	Name of the District	GAJAPATI
(iv)	Date of visit to the Districts/Schools	24-08-12 to 29-08-12

1.	<p><u>REGULARITY IN SERVING MEAL:</u> Whether the school is serving hot cooked meal daily? If there was interruption, what was the extent and reasons for the same?</p>	Students, Teachers & Parents																		
	<p>The MI has visited 40 schools and has found that hot cooked meal is served in every school. In only 09 of these schools since 01-04-12 provision of MDM has been stopped for some days (for school wise details, see Table 1.1 at page 113). In Ankudaguda UPS, MDM has not been served for 02 days that is on 25-06-12 and 26-06-12 due to lack of rice. In M.R. Odia Girls UPS, for the same reason, MDM was not served for 03 days, that is from 24-07-12 to 26-07-12. In 08 schools MDM had not been cooked in May and June 2012 because the Cook and Helper were not to get remuneration for these 02 months and hence they had remained absent. There was no interruption of MDM service in the other 31 schools after 01-04-12.</p>																			
2.	<p><u>TRENDS:</u> Extent of variation (As per school records vis-à-vis Actuals on the day of visit)</p> <table border="1"> <thead> <tr> <th>No.</th> <th>Details</th> <th>On the day of visit</th> </tr> </thead> <tbody> <tr> <td>i.</td> <td>Enrollment</td> <td>6045</td> </tr> <tr> <td>ii.</td> <td>No. of children opted for MDM</td> <td>6045</td> </tr> <tr> <td>iii.</td> <td>No. of children attending the school on the day of visit</td> <td>4543</td> </tr> <tr> <td>iv.</td> <td>No. of children availing MDM as per MDM Register</td> <td></td> </tr> <tr> <td>v.</td> <td>No. of children actually availing MDM on the day of visit</td> <td>4310</td> </tr> </tbody> </table>	No.	Details	On the day of visit	i.	Enrollment	6045	ii.	No. of children opted for MDM	6045	iii.	No. of children attending the school on the day of visit	4543	iv.	No. of children availing MDM as per MDM Register		v.	No. of children actually availing MDM on the day of visit	4310	<p>School level registers, MDM Registers Head Teachers, Schools level MDM functionaries / Observation of the monitoring team.</p>
	No.	Details	On the day of visit																	
i.	Enrollment	6045																		
ii.	No. of children opted for MDM	6045																		
iii.	No. of children attending the school on the day of visit	4543																		
iv.	No. of children availing MDM as per MDM Register																			
v.	No. of children actually availing MDM on the day of visit	4310																		

In the 40 sample schools, 6045 children had been enrolled and for all of them MDM provision has been made by the government. On the date of MI's visit to these schools, 4543 (75.2%) children had attended the schools. Whereas 4310 (71.3%) children had taken MDM. In all 40 schools except the Sevakpur PS, some children had not attended the school on the day of visit of MI. The teachers could not say correctly the reasons for which those children had remained absent from school. There is neither any process nor any mechanism followed in each school and the District to record the reasons for non-attendance of the children. No systematic measure has been taken by the SMC to raise the percentage of attendance of children. Further, the District has not taken any step to identify the cases of double / fake enrollment and delete their names from the students' attendance register. In our MDM report for the 2nd half year of 2010-11 and for the 1st half year of 2011-12, the State had been requested to make a study on students' absenteeism and take appropriate measures but it appears that the District has not taken such steps.

In addition, 3.9% children who had attended the schools had not taken MDM. These children belong to 14 schools (Table 2.1 at page 114). In these schools, some children did not take MDM for varied reasons. For instance, in Gurandi Telugu UPS, N. Rajeswari of class III did not eat MDM on 24-08-12 because she was suffering from fever. For reasons of illness, Rachana Biswal and Uma Sekhar Biswal of class II, Tripati Barik of class VII and Manas Pradhan of class IV of Jajpur PUPS could not eat MDM on 25-08-12. In the same school, Subasini Pradhan and Santoshi Pradhan of class VI and Dhaneswari Jena of class IV did not eat MDM on 25-08-12 because they do not take non-vegetarian item on Saturday on ritual ground and egg curry is the prescribed menu for Saturday and 25-08-12 was a Saturday. In Dr. S.N. Rajguru UPS, some children also did not take MDM on 29-08-12 because they are vegetarian and on 29-08-12 (Wednesday) egg curry was the prescribed menu. In the schools, some children (e.g. Rohit Pattanaik of class III) also did not take MDM because they have brought tiffin from home. The situation of coming to school but not taking MDM is more found in urban schools than in rural schools.

The MI has also noticed that there are 18 schools, where the quantum of rice cooked for MDM as its visit day was not same as is required for the numbers of children who actually consumed it. In 10 schools, rice was cooked less than the required amount (See Table 2.1 for details) whereas in 08 schools, rice was cooked more than the required amount. In latter case, the surplus fund was taken away by the Cook and Helper.

	<p><u>REGULARITY IN DELIVERING FOOD GRAINS TO SCHOOL LEVEL:</u></p> <p>(vii) Is school receiving food grain regularly? If there is delay in delivering food grains, what is the extent of delay and reasons for the same?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>
	<p>Out of the 40 sample schools, only 03 schools have received rice regularly since 01-04-12 (For school wise details, see Table 3.1 at page 115). In case of many schools, the reason of delay is found to be due to availability of stock.. This has occurred rice is not delivered every month but once for several months at school point. Dal, vegetable, mealmaker and eggs are procured from local markets.</p>	
	<p>(viii) Is buffer stock of one-month's requirement is maintained?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries</p>
	<p>There is a buffer stock of one month's requirement of rice in only 04 out of the 40 sample schools for every month since 01-04-12 (For school wise details see, Table 3.1).</p>	
	<p>(iii) Is the quantity of food grains supplied as per the marked / indicated weight?</p>	
<p>3.</p>	<p>In 23 out of 40 sample schools, rice has been supplied less than the marked weight of the bag (i.e. 50kg). Rice has been received less up to an amount of 1 to 6 kg. per 50 kg. bag (for school wise details see Table 3.1). The Block / District officers have not taken appropriate measures to address this problem. The schools receiving less amount of rice complain that they are compelled to give signature on the receipt to have received 50 kg. of rice per bag. Further, teachers are compelled to receive the rice in such cases. This occurs only because digital weighing machines are not available both at Block and school points.</p>	
	<p>(iv) Is the food grains delivered at the school?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries</p>
	<p>Rice is delivered at schools in 28 out of 40 sample schools. In case of 01 school, rice is delivered at SHG houses and in case of 11 schools, the SHG receives it from Block Office, (For school wise details, see Table 3.1).</p>	
	<p>(v) Is the quality of food grain good?</p>	
	<p>In all 40 sample schools, the rice received has been of good quality. (For school wise details, see Table 3.2 at page 117).</p>	
<p>4.</p>	<p><u>REGULARITY IN DELIVERING COOKING COST TO SCHOOL LEVEL:</u></p> <p>(x) Is school receiving cooking cost in advance regularly? If there is delay in delivering cooking cost what is the extent of delay and reasons for it?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>

	<p>Not a single out of the 40 sample schools so far has received the cooking cost in advance regularly. Some schools have not received it from April 2012 onwards. In many schools, no data in this regard is available. (For schoolwise details see Table 4.1 at page 118).</p>	
	<p>(xi) In case of delay, how schools manage to ensure that there is no disruption in the feeding programme?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>
	<p>In case of delay, the cooking cost is managed from SHG fund (17 schools), the HM's own fund (16 schools), revolving fund (06 schools), and SMC President's own fund (03 schools). (For school wise details, see Table 4.1).</p>	
	<p>xii) Is cooking cost paid by Cash or through banking channel?</p>	<p>School level registers, MDM Registers, Head Teacher, School level MDM functionaries.</p>
	<p>The cooking cost has been received only through E-transfer in all schools. (For school wise details, see Table 4.1).</p>	
5.	<p><u>SOCIAL EQUITY:</u> Did you observe any gender or caste or community discrimination in cooking or serving or seating arrangements?</p>	<p>Observations</p>
	<p>In all sample 40 schools, the MI has noticed no discrimination but equity in cooking, serving and sitting arrangement for MDM basing upon gender, caste or community (For school wise details, see Table 5.1 at page 119).</p>	
6.	<p><u>VARIETY OF MENU:</u> (x) Has the school displayed its weekly menu, and is it able to adhere to the menu displayed?</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
	<p>34 out of the 40 sample schools have displayed their weekly menu at a visible place. This menu has been prepared by the State Government and strictly followed by 40 sample schools where MDM is prepared everyday as per the given weekly menu. (For school wise details, see Table 6.1 at page 120).</p>	
	<p>(xi) Is there variety in the food served or is the same food served daily?</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
	<p>In all of the 40 sample schools different food items are provided to children daily. The food items have been decided by the State Government keeping in view the nutritional requirement of the children.</p>	

	(xii) Does the daily menu include rice / wheat preparation, dal and vegetables?	Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.
	In all 40 sample schools, the daily menu includes rice and vegetables every day. Dal is part of daily menu 02 days a week in all schools. Wheat is not given at all (For school wise details, see Table 6.1). In all 40 sample schools, rice and vegetables are served daily.	
7.	<u>QUALITY & QUANTITY OF MEAL:</u> Feedback from children on	Observations of Investigation during MDM service
	g) Quality of meal:	
	In all 40 sample schools, children have appreciated the quality of rice and the quality of curry and dal (For school wise details, see Table 7.1 at page 121).	
	h) Quantity of meal:	Observations of Investigation during MDM service
	In all of the 40 sample schools, children have appreciated the quantity of rice and the quantity of dal / curry served to them (For schoolwise status see Table 7.1).	
c) {If children were not happy Please give reasons and suggestions to improve.}	Observations of Investigation during MDM service	
See description of items 7 (a) and (b) above.		
8.	<u>SUPPLEMENTARY:</u> (iv) Is there school Health Card maintained for each child?	Teachers, Students, School Record
	In 25 out of the 40 sample schools, health cards are available for the children (For school wise details, see Table 8.1 at page 122). But it contains information of the children relating to name, height and weight in some schools. Data relating to illness and health are also not recorded in Munising UGHS where health check up programme has been conducted for the children. But in Engereda PUPS, all health related data have been mentioned in the health cards of all children.	
	(ii) No. of times health check up of children done since 1-4-2012.	
	Health check up of children has been done in only 02 schools since 1-4-2012. Among them it has been done only once in 01 school, and 4 times in 01 school. The rest 38 schools are yet to get the health check up benefit (for school wise details, see Table 8.1). Thus health check up of children is not regularly done. Malnutrition cases are not recorded.	
(iii) Whether children are given micronutrients (Iron, folic acid, vitamin – A dosage) and deworming medicine periodically?	Teachers, Students, School Record	
In none of the 40 sample schools, iron tablets, Vitamin A tablets have been given since 1-4-12 (Table 8.1). In no school, deworming tablets have also been given since 1-4-12.		

(iv) Who administers these medicines and at what frequency?	Teachers, Students, School Record
-	
(v) No. of times these medicines have been given since 1-4-2011.	
Medicines have not been given even once in any school.	
<u>STATUS OF COOKS:</u>	
(iv) Who cooks and serves the meal? (Cook/helper appointed by the Department or Self Help Group, or NGO or Contractor)	Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.
Out of the 40 sample schools, Cook and Helper have been engaged by SHG in 29 schools and in 11 schools by SMC (For school wise details, see Table 9.1 at page 123).	
(ii) Is the number of Cooks and Helpers engaged as per Govt. of India norms?	Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.
<p>As per the Government of India norms (vide, Lr. F. No. 5-1 / 2010-MDM-2-1 Govt. of India, MHRD, Department of School and Mass Education and Literacy, MDM Division Dt: 30-04-2010), 01 Cook-cum-Helper shall be engaged to a school up to 25 students. 02 Cook-cum-Helpers for schools having 26 to 100 students. And 01 additional Cook-cum-Helper is to be engaged for every addition of 100 students.</p> <p>This norm has been followed in Odisha. Each District has been instructed to implement it at school level. The process has started and in 01 school, Cook-cum-Helper has been employed. But no school has redesignated Cook and Helper as Cook-cum-Helper (See Table 9.1 at page 123). No school has Cook-cum-Helper as per the GoI norm.</p>	
(iii) What is remuneration paid to cooks/helpers?	Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.
The Cook is paid Rs.600/- per month and the Helper is paid Rs.400/- per month in all except 01 sample school. (For school wise details, see Table 9.1). At Khariasahi PS, the Cook has been paid Rs. 1,000/- per month remuneration.	
(iv) Are the remuneration paid to cooks/helpers regularly?	Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.

	<p>In all 40 sample schools the Cooks and Helpers are not getting their remuneration regularly. In many schools, they have not got their remunerations since April 2012. In 05 schools, passbook was not available and in 07 schools, pass book did not show any information on the months for which remuneration has been received (For school wise details, see Table 9.1). It goes against the current MDM rules of the State which says that the Cook-cum-Helper will get their remuneration every month regularly. It was observed that the District/Block office for MDM does not inform in writing the number of months for which salary was released. The Cook and Helper in schools have got no letter relating to the months for which they have got their salary. They have received the salary in their passbook but do not know for which months they have got it.</p>	
	<p>(v) Social Composition of cooks /helpers? (SC/ST/OBE/Minority)</p>	<p>Observations and discussion with children teachers, parents, VEC members, Gram Panchayat members and cooks.</p>
	<p>In 32 out of the sample 40 schools, the Cook belongs to SC/ ST/ OBC/ minority community. In 33 schools, the Helper belongs to SC/ST/OBC/minority community (For school wise details, see Table 9.1). Thus employment facility is given to the backward communities on priority.</p>	
<p>10.</p>	<p><u>INFRASTRUCTURE:</u> 1) Is a pucca kitchen shed-cum-store: (p) Constructed and in use (q) Constructed but not in use under (r) Under construction (s) Sanctioned, but constructed not started (t) Not sanctioned Any other (specify)</p>	<p>School records, discussion with head teacher, teacher, VEC, Gram Panchayat members.</p>
	<p>34 sample schools have got the sanction of pucca kitchen shed. In 06 schools, the pucca kitchen shed-cum-store that has been constructed is in use for both cooking and storing. In 07 schools, it is constructed but not in use for cooking. In 17 schools it is constructed but is not used for storing rice, fuel or other MDM items. In 02 schools, the pucca kitchen-cum store is under construction whereas in 02 schools it is sanctioned but the construction work has not yet been started (For school wise details, see Table 10.1 at page 125).</p>	
	<p>2. Construction grant received under which scheme?</p>	
	<p>All the schools except one who have got the sanction for constructing the kitchen-cum-store have got it under the MDM or SSA scheme (For school wise details, see Table 10.1). Lanjipadar UPS has got it from DRDA.</p>	
	<p>3. Reason for not using the constructed kitchen-cum-store for cooking and storing</p>	

	<p>The constructed kitchen-cum-store is not used for cooking because of smoke/ventilation problem (06 schools) and water soakage (01 school). Further, the same is not used for storing because of space shortage (05 schools), fear of theft (03 schools) and other reasons (10 schools) (For schools wise details, see Table 10.1). The MI has observed that the kitchen constructed out of Rs. 60,000/- is of very small size. The cooking space available is further reduced because cooking slab has been made and is not used for cooking, Gas chulla is not provided. MDM is cooked in a hearth.</p>	
11.	<p>In case the pucca kitchen shed is not available, where is the food being cooked and where are the food grains/other ingredients being stored.</p>	<p>Discussion with head teacher, teacher, VEC, Gram Panchayat members, Observation</p>
	<p>There are 16 out of the 40 sample schools where pucca kitchen is not used for cooking MDM. Out of these, in 04 schools, MDM is cooked in school verandah. In case of 01 school, it is cooked in open space whereas in 09 schools, it is cooked in an asbestos/tin/tile roofed house. In another school, alternative place of cooking is an unused pucca room of the school.</p> <p>There are 28 schools where MDM is not stored in a pucca kitchen-cum-store. In 28 schools, food grains are stored in HM's room / classroom / unused room of school/MCS room/community house. In Munising UGHS, SHG house is also the alternative place of storing (For school wise details, see Table 10.2 at page 126).</p>	
12.	<p>Whether potable water is available for cooking and drinking purpose?</p>	<p>Discussion with head teacher, teacher, VEC, Gram Panchayat members, Observation</p>
	<p>In 36 sample schools, potable water is available for cooking and drinking purpose (For school wise details, see Table 10.2).</p>	
13.	<p>Whether utensils used for kind food are adequate?</p>	<p>Teachers/Organizer of MDM Programme</p>
	<p>In 26 out of 40 sample schools, adequate utensils are available for cooking MDM (For school wise details, see Table 10.2)</p>	
14.	<p>What is the kind of fuel used? (Gas based/ firewood etc.)</p>	<p>Observation</p>
	<p>In 39 sample schools, firewood is used as fuel. (For school wise details, see Table 10.2). In 03 schools, gas is used as fuel.</p>	
15.	<p><u>SAFETY & HYGIENE:</u> iv. General Impression of the environment, Safety and hygiene:</p>	<p>Observation</p>

	<p>In all 40 sample schools, clean and safe environment exists (For school wise details, see Table 11.1 at page 127). Every day the school campus and classrooms are cleaned by the students before the children go for a prayer.</p>	
	<p>ii. Are children encouraged to wash hands before and after eating</p>	<p>observation</p>
	<p>In all of 40 sample schools, children are encouraged by the teachers to wash hands using soap and water both before and after eating MDM. (For school wise details, see Table 11.1). In many schools, the Health Minister/Food Minister of the school cabinet guides the children to soap to wash hands and utensils.</p>	
	<p>iii. Do the children partake meals in an orderly manner?</p>	<p>observation</p>
	<p>In 38 out the 40 sample schools children are seen to partake MDM in an orderly manner (Table 11.1). The orderliness is managed by teachers and the school cabinet formed by the children.</p>	
	<p>iv. Conservation of water?</p>	<p>Observation</p>
	<p>In all of the 40 sample schools, children are found to conserve water while washing hands and utensils (For school wise details, see Table 11.1).</p>	
	<p>v. Is the cooking process and storage of fuel safe, not posing any fire hazard?</p>	<p>observation</p>
	<p>In all 40 sample schools, cooking and storage places are found to be safe from any fire hazard (Table 11.1).</p>	
16.	<p>COMMUNITY PARTICIPATION: 1) Extent of participation by Parents/ VECs /Panchayats /Urban bodies in daily supervision, monitoring, participation</p>	<p>Discussion with head teacher, teacher, VEC, Gram Panchayat members</p>
	<p>In all 40 sample schools, parents supervise and monitor the MDM (everyday in 02 schools and occasionally in the rest 38 schools). In all 40 sample schools SMC have supervised and monitored MDM (everyday in 07 schools & occasionally in 33 schools). PRI/ULB have supervised and monitored MDM occasionally in 31 schools and have not at all supervised MDM in 09 schools (For schools wise details, see Table 12.1, page 128).</p>	
	<p>2) Any roster maintained by community for supervision of MDM?</p>	
	<p>In all 40 schools roster is not maintained for supervising MDM. (Table 12.1).</p>	
	<p>3) (a) opinion of community on quantity of MDM per child at primary level</p>	
<p>In none of the sample schools having primary schooling, the community has opined that the quantity of MDM per child at primary level is poor (For school wise details, see Table 12.2 at page 129).</p>		

	<p>(b) Opinion of community on quantity of MDM per child at upper primary level.</p> <p>In none of the sample schools having Upper Primary schooling, the community has opined that the quantity of MDM per child at upper primary level is poor in respect of dal (For school wise details, see Table 12.2 at page 129).</p> <p>(c) Overall impression of MDM programme.</p> <p>In none of the 40 schools, the overall impression of community on MDM is average (Table 12.2). Community has appreciated the weekly menu and the policy of providing hot cooked meal everyday.</p> <p>(d) From where do you know about MDM.</p> <p>The community has known about MDM from teacher in all schools. (For school wise details, see Table 12.2).</p>	
17.	<p>INSPECTION & SUPERVISION</p> <p>Has the mid day meal programme been inspected by any state/district/block level officers/officials?</p>	<p>School records, discussion with head teacher, teachers, VEC, Gram Panchayat members</p> <p>Since 01-04-12, in only 01 school the Block level officers have inspected the MDM programme. The State level officers and District level officers have visited no schools since 1-4-12 (For school wise details, see Table 13.1 at page 130). In 01 case, these officers have given written remarks regarding MDM. The MDM supervision is inadequate in absence of Cluster Level Nodal Officers for MDM. The Block Level Nodal Officer for MDM is the SI of schools. The District Level Nodal Officer is the DI of School, Both of them do not find enough time for regular supervision of MDM at school point. The State has not engaged the CRCCs as the Cluster Nodal Officers for MDM, and hence they do not supervise MDM during their visits to schools.</p>
18.	<p>IMPACT</p> <p>Has the mid day meal improved the enrollment, attendance of children in school, general well being (nutritional status) of children? Is there any other incidental benefits due to serving cooked meal in schools.</p>	<p>School records, discussion with head teacher, teachers, students, VEC, Gram Panchayat members.</p> <p>In 34 out of 40 sample schools, parents, teachers and students have opined that MDM has improved students' enrollment and attendance. In 25 schools they have opined that MDM has improved general health of children. In 15 schools they have opined that MDM has improved nutritional status of children (For school wise details, see Table 14.1 at page 131).</p>

40 SAMPLE SCHOOLS FOR MONITORING OF SSA ACTIVITIES & MDM PROGRAMME IN GAJAPATI DISTRICT ON 23.08.2012 BY NKC CENTRE FOR DEVELOPMENT STUDIES, BHUBANESWAR (MONITORING INSTITUTE)

Sl. no.	Name of School	Name of the Block / ULB	Category	Date of Visit	Remark
1.	Bhuskudi MES	Gosani		24.08.12	
2.	Gurandi Telugu UPS	Gosani		24.08.12	
3.	Gurandi Boys UPS	Gosani		24.08.12	
4.	Gurandi Girls UPS	Gosani		24.08.12	
5.	Gosani UGHS	Gosani	KGBV	24.08.12	
6.	Jangalapadu UPS	Gosani	NPEGEL	24.08.12	
7.	Adamgam PS	Gosani		24.08.12	
8.	Sariapali PUPS	Gosani		24.08.12

38	K.B.G.N.P PS	Not sanctioned	-	-	--
39	Anka Sahi PS	Not sanctioned	-	-	-
40	Goura Chandra Gajapati PUPS	Not sanctioned	-	-	-

*1) No. of schools where pucca kitchen-cum-store has been constructed and in use for both cooking and storing = 06

2) No. of schools where pucca kitchen-cum-store has been constructed and not used for cooking = 07

3) No. of schools where pucca kitchen-cum-store has been constructed and not used for storing rice , fuel and other MDM items = 17

4) Main reasons for not using the constructed pucca kitchen-cum-store for cooking =

a) Space shortage = Nil

b) Smoke/ventilation problem = 06 Schools

c) Water soakage = 01 school

5) Main reasons for not using the constructed pucca kitchen-cum-store for storing =

a) Fear of theft = 03 Schools

b) Space shortage = 05 Schools

c) Other reasons = 10 Schools

6) No. of schools having no sanction to construct pucca kitchen-cum-store= 06

7) No. of schools where the pucca kitchen-cum-store is under construction = 02

8) No. of schools having sanction to construct pucca kitchen-cum-store but the construction work has not started = 02

Table 10.2: School wise status on alternative place of cooking and storing where pucca kitchen-cum-store is not available and availability of water, fuel and utensils for cooking

Sl. No.	School name	Alternative place used for cooking MDM	Alternative place used for storing rice/ fuel/MDM items	Potable water available for cooking and drinking	Adequate utensils available for cooking	Kind of fuel used
1	Bhusukudi ME school	Tin roofed house at school	-	Yes	Adequate	Firewood
2	Gurandi Telugu UPS	-	School store room (rice, others) Unused room(fuel)	Yes	Not adequate	Firewood

3) No. of schools where parents, teachers and students have opined that MDM has improved nutritional status of children = 15

Major Issues and Policy Recommendations

Basing upon the findings on MDM activities in the 04 sample Districts, some major issues have been identified and policy measures have been suggested for each district separately in earlier chapters and those have been compiled in this chapter. The major issues have been mentioned in section B and the policy recommendation have been delineated in section C. In section A some achievements of the MDM programme have been depicted.

Section A

Achievements:

1. Hot cooked MDM is given in all schools in all 04 Districts.
2. Good quality of rice is supplied.
3. There is no gender / caste / community discrimination in cooking / serving / seating arrangement relating to MDM in any schools in all 04 sample Districts.
4. Most of the schools have displayed the MDM weekly menu prescribed by the State Govt. in a visible place in Angul District.
5. All schools have served MDM as per the weekly menu prescribed by the State Govt. in Angul District.
6. In most of the schools, employment facility has been given to women of backward communities.
7. Potable water facility is available in almost all schools.
8. Community is satisfied over the quality and quantity of MDM in almost all schools.

Section B

Major Issues:

1. Issue of non-provision of MDM on some working days.

- ✓ Angul District: 15 (37.5%) schools ranging from 02 day to 30 days
- ✓ Ganjam District : No (0%) schools.
- ✓ Rayagada District: No (0%) schools.
- ✓ Gajapati District: 09 (22.5%) schools ranging from 02 day to 09 days
- Main reasons are rice shortage, rainfall and lack of cooking cost.

2. Issue of some enrolled children not coming to school and hence unable to take MDM.

- ✓ Angul District: 44.3% children.
- ✓ Ganjam District: 28.8% children.
- ✓ Rayagada District: 32.2% children.
- ✓ Gajapati District: 24.8% children.
- One reason may be fake enrollment or enrollment in more than one school or dropout.
- No steps taken by SMCs / District in a planned way to reduce student absenteeism.

3. Issue of some children denying to take MDM although have attended the school.

- ✓ Angul District: 8.1 % children
- ✓ Ganjam District: 8.3 % children
- ✓ Rayagada District: 4.9 % children
- ✓ Gajapati District: 3.9 % children
- The reasons are many: (1) children going to home to take food; (2) children not eating
owing to lack of utensils; and (3) children eating home-made tiffin or snacks purchased from market.

4. Issue of less amount of rice being cooked than the amount required for the children who actually consumed MDM.

- Reported from Angul, Ganjam, Rayagada and Gajapati Districts.

- 5. Issue of more amount of rice being cooked than what is required for the children who have actually consumed MDM and the excess amount of rice has been taken away by the Cook and Helper.**
 - Reported from Angul, Ganjam, Rayagada and Gajapati Districts.

- 6. Issue of non-engagement of Cook-cum-Helper as per the new GoI MDM norm.**
 - Reported from Angul, Ganjam, Rayagada and Gajapati Districts.
 - The reasons are: (1) the DNO, MDM has not issued a letter to the HMs (Angul, Rayagada) or (2) the letter of DNO, MDM needs to be more clear and focussed (Ganjam, Gajapati)

- 7. Issue of schools not getting the cooking cost in advance regularly every month.**
 - Reported from Angul, Ganjam, Rayagada and Gajapati Districts.
 - The reason is: delay by the District Officers to release the cooking cost in advance every month.

- 8. Issue of engaging Head Teachers in managing MDM**
 - Reported from Angul, Ganjam, Rayagada and Gajapati Districts.
 - SMC members take plea that they do not have time to manage MDM but urge that children should get MDM everyday and request the Head Teachers to manage MDM.
 - In the event of delay in payment of advance cooking cost, some SHGs are not willing to manage MDM utilizing their own fund.

- 9. Non-payment of remuneration of Rs.1000/- per month to Cook and Helper.**
 - Reported from Angul, Ganjam, Rayagada and Gajapati Districts.

- 10. Issue of lack of regular health check up and no provision of Vit A, iron tablets and de-worming tablets.**
 - Reported from Angul, Ganjam, Rayagada and Gajapati Districts.
 - Reason is: (1) School Helath Programme has not been fully implemented.

11. Issue of lack of pucca kitchen-cum-store at school.

→ Reported from Angul, Ganjam, Rayagada and Gajapati Districts.

→ Reasons are: (1) no sanction of grant to construct kitchen; (2) kitchen is under construction; and (3) construction work has not been started.

12. Issue of non-utilization of pucca kitchen shed-cum-store for cooking / storing purpose.

(a) Not used for cooking:

✓ Angul District: 17(56.7%) out of 30 schools having the pucca kitchen.

✓ Ganjam District: 07 (50%) out of 14 schools having the pucca kitchen.

✓ Rayagada District: 14 (48.3%) out of 29 schools having the pucca kitchen.

✓ Gajapati District: 07 (23.3%) out of 30 schools having the pucca kitchen.

→ Main reasons: space shortage and smoke problem.

(b) Not used for storing:

✓ Angul District: 26 (86.7%) out of 30 schools having the pucca kitchen.

✓ Ganjam District: 11 (78.6%) out of 14 schools having the pucca kitchen.

✓ Rayagada District: 17 (58.6%) out of 29 schools having the pucca kitchen.

✓ Gajapati District: 17 (56.7%) out of 30 schools having the pucca kitchen.

→ Main reasons: space shortage and fear of theft.

13. Issue of inadequate availability of cooking utensils.

✓ Angul District: 13 (32.5%) schools.

✓ Ganjam District : 23 (57.5%) schools

✓ Rayagada District: 18 (45%) schools

✓ Gajapati District: 14 (35%) schools.

14. Issue of lack of adequate and regular supervision and monitoring of MDM

→ Reported from Angul, Ganjam, Rayagada and Gajapati Districts.

→ Reason: (1) No Cluster level Nodal Officer engaged to monitor MDM.

15. Issue of lack of electronic / digital weighing machine for measuring the weight of food grains and vegetables and the weight of children at school point.

→ Reported from Angul, Ganjam, Rayagada and Gajapati Districts.

16. Issue of mismanagement of MDM by NGO, Nandi Foundation.

→ Reported from Ganjam District.

→ The GoI norm and State Govt. guidelines have been violated.

17. Issue of less quantity of rice supply at school point than what the SHG / HM/ SMC signs to have received.

→ Reason: Lack of digital/ electronic weighing machine at Block Nodal Office, MDM and school point.

18. Issue of lack of dinning hall for consuming MDM in a safer place throughout the year and especially during rainy season.

→ Reported from Angul, Ganjam, Rayagada and Gajapati Districts.

Section C

Policy Recommendations:

1. Rice stock availability at school be recorded every month and accordingly the required amount of rice be supplied with only 01 month of buffer stock.
2. Physical verification of the enrolled children at every school be made and the cases of fake/multiple enrollment / dropout be identified and deleted from the Enrollment Register. The State / District may promote for a research study to find out the reasons for low attendance and non-consumption of MDM at school by enrolled children.
3. School gate may be closed during recess hours and children be motivated to eat MDM together with other children. Eating utensils like steel trays and glass be provided to schools so that children would not go to home in recess to bring them to eat MDM.

4. Neat and clean dinning space be provided so that the children will like to eat in a safe place throughout the year. Each school therefore be provided with a pucca dinning hall having vitrified tiled floor, sitting space as per enrollment strength, safe drinking water facility and facility for washing utensils and hands with soap and water.
5. Each school be instructed to identify, at morning prayer class every day, the children who would opt for taking MDM and MDM be cooked only for them.
6. The Head Teachers, SHGs and SMCs may be given onsite support relating to timely submission of vouchers and expenditure statement to the Block Office. Adequate suppoting staff and equipment may be provided to facilitate the District Nodal office, MDM in releasing the advance cooking cost regularly by the 1st week of every month. All CRCCs be engaged as Cluster Nodal Officer for MDM so that they can assist the Block Nodal Officer, MDM in monitoring of MDM.
7. The District / Block Nodal Officer for MDM be instructed to ensure non-involvement of Head Teacher / Teacher in procurement / management of MDM as per the MDM norm.
8. No Head Teacher/ teacher be made accountable for any kind of discrepancy or stoppage in the management or procurement of MDM.
9. The roles of SMC, SHG and teachers relating to MDM management be displayed in a flex board at a visible place in school for generating awareness as well as transparency of MDM rules.
10. Each Cook/ Helper be redesignated as Cook-cum-Helper and be paid Rs.1000/- per month as remuneration. The Govt. of India norm relating to engagement of the number of Cook-cum-Helper as per the student strength of school be implemented strictly within a given time period in all schools.
11. The State should take steps to cover all elementary schools under the NRHM scheme for regular health check up and provision of vit. A, iron and de-worming tablets to the needy children.

12. For each kitchen shed-cum-store, a chimney may be constructed for release of smoke and shelves may be prepared for storage of food grains and fire wood inside the kitchen shed-cum-store using the maintenance grant. In case of schools having more than 100 children, additional grant may be given for construction of 01/ 02 more pucca kitchen shed-cum-stores depending upon the enrollment strength of the school.
13. Schools having inadequate cooking utensils may be given some grant to procure the required cooking utensils.
14. The supervision and monitoring system needs to be strengthened with documentation of feedback data received by the supervisory and monitoring officers in prescribed formats.
15. Each school may be provided with a digital weighing machine for utilizing it to weigh the food grains/vegetables to be used for cooking and also to take weight measurement of the children to assess their nutritional status.
16. Each school may be given a separate grant to purchase steel-made storage bins to keep the food grains in safe custody. This may be released depending upon the enrollment strength of school.
17. NGOs should not be given the responsibility of procuring cooking and supplying the MDM to any rural school and any urban school that has the facility of kitchen as per the GoI norm.
18. All schools be instructed to keep record of the nutritional status of all children and to identify the malnourished children from among them for malnutritional / medical treatment.

Comments of the State Project Management Unit of MDM

Government of Odisha
School & Mass Education Department

No. 1605 /SPMU, Dt. 11.12.2012
SME (MDM) - 186/12 (Pt)

From

Shri Sukadev Das, OAS (SAG),
Director, Elementary Education &
State Nodal Officer (MDM).

To

Gaya Prasad,
Director (MDM), Ministry of HRD,
Deptt. of School Education & Literacy,
Shastri Bhawan, New Delhi, (MDM Division).

Sub: Submission of compliance to the 2nd Half Yearly Monitoring Draft Report (for the period of 1st April to 30th September 2012) on MDM Scheme submitted by Nabakrushna Choudhury Centre for Development Studies, Bhubaneswar.

Sir,

I am directed to submit herewith the compliance on the 2nd Half Yearly Monitoring Draft Report of 2012-13 on MDM Scheme furnished by Nabakrushna Choudhury Centre for Development Studies, Bhubaneswar (from 1st April to 30th September 2012) for kind information and necessary action.

Yours faithfully,

Director, Elementary Education &
State Nodal Officer (MDM)

Memo No. 1606 / Dt. 11.12.2012

Copy along with the compliance forwarded to the Director, Nabakrushna Choudhury Centre for Development Studies, Bhubaneswar for information and necessary action.

Director, Elementary Education &
State Nodal Officer (MDM)

Compliance to the issues:

ANGUL DISTRICT

1. Regularity in serving meal:

Despite issue of instructions to release cooking cost for a quarter well in advance and supply food grains minimum for a month in advance, it is not understood why some schools did not provide mid-day meal to the students. CRCCs have been declared as cluster level nodal officers. The Nodal SI of Schools have been provided with one computer set and a Data Entry Operator for day to day monitoring on regular supply of rice and cooking cost in advance. However, Collector and DI of Schools are being requested to ensure availability of rice at least for one month in advance and cooking cost for a quarter for uninterrupted supply of hot cooked meal to the school children.

2. Trends:

District Administration is being requested to make physical verification of the enrolled children of each and every school and identify the cases of fake/ multiple enrollment for deletion. The SMC / SHG and the teachers should motivate the parents and students to partake mid-day meal instead of going home during the recess time. Central Govt. has been moved for placement of funds for procurement / replacement of kitchen devices, after receipt of which requirement of schools can be met. District Administration is being asked to take stringent action against officials / Implementing Agencies which are involved in cooking less /more quantity of rice than what is required and to intimate action taken against the erring officials / agencies.

3. Regularity in delivering food grains to school level:

Nodal DI of Schools will be asked to ensure availability of MDM registers at all times. Due to lack of digital weighing machine at the school level, the teachers are compelled to receive less quantity of rice. GoI should make provision for supply of digital weighing machine.

4. Regularity in delivering cooking cost to school level:

Instructions have been issued to the District authorities to directly release the cooking cost to the joint Bank Account of the school meant for MDM Scheme only from Nodal DI of Schools level. The role of BDO in releasing cooking cost has been dispensed with for early release of funds.

5. Social equity:

Nothing to comply.

6. Variety of menu:

Nothing to comply.

7. Quality & quantity of meals:

Nothing to comply

8. Supplementary:

Convergence has been made with the National Rural Health Mission, Department of Health & Family Welfare to strengthen the School Health Programme. State Nodal Officer (MDM) has been designated as the Nodal Officer of the School & Mass Education Deptt. to coordinate the School Health Programme. Capacity building has been strengthened at the State level for effective implementation of the school health programme in the schools.

9. Status of cooks:

Instructions have been issued to the District authorities to engage cook-cum-helper as per GoI norm and he is to be paid Rs.1000/- each as monthly honorarium w.e.f. 01.04.2012. It is surprising why the district authorities have not implemented the GoI guidelines. Instructions will be reiterated to follow strictly the GoI guidelines to engage cook-cum-helper and make payment of Rs.1000/- to each cook-cum-helper as monthly honorarium.

10. Infrastructure:

Collectors have been instructed to complete all incomplete Kitchen-cum-Stores expeditiously as a result these kitchen-sheds can be used for cooking and storing purposes. In case funds earmarked is insufficient, they can dovetail funds from other sources and complete the incomplete ones. The MHRD, GoI will be moved to make provision of funds for procurement of LPG Gas.

11. Safety and Hygiene:

Nothing to comply.

12. Community Participant:

Nothing to comply

13. Inspection & Supervision:

The CRCCs has been engaged as cluster level Nodal Officers. They have been asked to supervise MDM during their visits to schools. The State Govt. have authorized senior officers to act as State Monitors in respect of MDM Scheme and they have to supervise MDM during their visits to the allotted districts.

14. Impact:

Nothing to comply.

GANJAM DISTRICT

1. Regularity in serving meal:

Nothing to comply.

2. Trends:

District Administration is being requested to make physical verification of the enrolled students of each and every school and identify the cases of fake/ multiple enrollment for deletion. The SMC / SHG and the teachers should motivate the parents and students to partake hot cooked meals during the lunch time. As regards non-availability of adequate eating utensils, MHRD, GoI has been moved for placement of funds for procurement / replacement of old ones.

The District Administration is being requested to ensure that Nandi Foundation prepare mid-day meals as per weekly menu prescribed by the State for the students actually willing to eat MDM every day. The Programme Implementing Agency / the officials involved in cooking less /more rice than the required amount shall be taken to task.

3. Regularity in delivering food grains to school level:

Nothing to comply.

4. Regularity in delivering cooking cost to school level:

Strict instructions have been issued to the Nodal DI of Schools directly to release funds to the joint Bank Account of the school exclusively meant for MDM Scheme at least for a quarter in advance. The role of BDO in releasing fund to the school accounts has been stopped only to facilitate effective quick flow of funds.

5. Social equity:

Nothing to comply.

6. Variety of menu:

Instructions have been issued since long by the State Govt. to display the weekly schedule of menu and entitlement of students of both Primary and Upper Primary schools in a prominent place on the wall. This instruction again will be reiterated to the District Administration for display in a fortnight.

7. Quality & quantity of meals:

Nothing to comply.

8. Supplementary:

Convergence with National Rural Health Mission (NRHM) of Health & Family Welfare Deptt. to take up School Health Programme rigorously in the schools has been strengthened. Capacity building of medical and teaching staff has been made to make them aware about the modus operandi of the programme. Health Cards will be distributed among the students who have not received the same till date Iron

and Folic Acids, Zinc, Vitamin A and de-worming tablets shall be distributed among the students soon.

9. Status of cooks:

Instructions have been issued to the District authorities to engage cook-cum-helper as per GoI norm and he is to be paid Rs.1000/- each as monthly honorarium w.e.f. 01.04.2012. It is surprising why the district authorities have not implemented the GoI guidelines. Instructions will be reiterated to follow strictly the GoI guidelines to engage cook-cum-helper and make payment of Rs.1000/- to each cook-cum-helper as monthly honorarium.

10. Infrastructure:

Collectors have been instructed to complete all incomplete Kitchen-cum-Stores expeditiously as a result these kitchen-sheds can be used for cooking and storing purposes. In case, funds earmarked is insufficient, they can dovetail funds from other sources and complete the incomplete ones. The MHRD, GoI will be moved to make provision of funds for procurement of LPG Gas.

11. Safety and Hygiene:

Nothing to comply.

12. Inspection & Supervision:

The CRCCs have been engaged as Cluster level Nodal Officers. They have been asked to supervise MDM during their visits to schools. The State Govt. have authorized senior officers to act as State Monitors in respect of MDM Scheme and they have to supervise MDM during their visits in the allotted districts.

13. Impact:

Nothing to comply.

RAYAGADA DISTRICT

1. Regularity in serving meal:

The Nodal DI of School is primarily responsible for any disruption in implementation of the MDM Programme. In the present instance MDM provision should not have been stopped in Komatalpeta U.P. School. Rather the Nodal SI of Schools should have obtained instructions from the concerned DI of Schools to motivate the SMC or any P.I.A to take up implementation of the programme without any disruption. The concerned DI, the Nodal DI and Nodal SI of School and the SI of Schools of the area will be taken to task in case such instances occur in future.

2. Trends:

District Administration is being requested to make physical verification of the enrolled children of each and every school and identify the cases of fake/ multiple enrollment for deletion. The SMC / SHG and the teachers should motivate the parents and students to partake mid-day meal instead of going home during the recess time. Central Govt. has been moved for placement of funds for procurement / replacement of kitchen devices, after receipt of which requirement of schools can be met. District Administration is being asked to take stringent action against officials / Implementing Agencies which are involved in cooking less /more quantity of rice than what is required and to intimate action taken against the erring officials / agencies.

3. Regularity in delivering food grains to school level:

Instructions have been issued several times to Collectors and Nodal DI of Schools to supply food grains (rice) at least for one month in advance to ensure uninterrupted service of hot cooked meal to the school children. The Nodal DI of Schools is primarily responsible for lifting and supply of rice to schools. In case rice is not available for a month in advance, Nodal DI of Schools and the Nodal SI of Schools will be taken to task. Collector will be advised to take up review on availability of rice and cooking cost in his monthly review meeting and ensure that there should not be any disruption in providing mid-day meal. MHRD, GoI will be moved to make provision of funds for procurement of LPG₇ gas for cooking and weighing machines for weighing of rice at school point.

4. Regularity in delivering cooking cost to school level:

Instructions have been issued to all Collectors with copies to DI of Schools and DPCs to release cooking cost at least for a quarter to the joint Bank Account of schools meant for MDM. The role of BDO as intermediary in releasing MDM funds has been withdrawn. Nodal DI of Schools is to release funds on all components of the scheme to proper quarters through e-transfer.

5. Social equity:

Nothing to comply.

6. Variety of menu:

Nodal DI of Schools will again be instructed to see that the weekly schedule of menu is displayed at a visible place in the left out schools.

7. Quality & quantity of meals:

Nothing to comply

8. Supplementary:

Convergence with National Rural Health Mission (NRHM) of Health & Family Welfare Deptt. to take up School Health Programme rigorously in the schools has been strengthened. Capacity building of medical and teaching staff has been made to make them aware about the modus operandi of the programme. Health Cards will be distributed among the students who have not received the same till date Iron and Folic Acids, Zinc, Vitamin A and de-worming tablets shall be distributed among the students soon.

9. Status of cooks:

Instructions have been issued to the District authorities to engage cook-cum-helper as per GoI norm and he is to be paid Rs.1000/- each as monthly honorarium w.e.f. 01.04.2012. It is surprising why the district authorities have not implemented the GoI guidelines. Instructions will be reiterated to follow strictly the GoI guidelines to engage cook-cum-helper and make payment of Rs.1000/- to each cook-cum-helper as monthly honorarium.

10. Infrastructure:

Collectors have been instructed to complete all incomplete Kitchen-cum-Stores expeditiously as a result these kitchen-sheds can be used for cooking and storing purposes. In case funds earmarked is insufficient, they can dovetail funds from other sources and complete the incomplete ones. The MHRD, GoI will be moved to make provision of funds for procurement of LPG Gas.

11. Safety and Hygiene:

Nothing to comply.

12. Community Participant:

Nothing to comply

13. Inspection & Supervision:

The CRCCs have been engaged as Cluster level Nodal Officers. They have been asked to supervise MDM during their visits to schools. The State Govt. have authorized senior officers to act as State Monitors in respect of MDM Scheme and they have to supervise MDM during their visits in the allotted districts.

14. Impact:

Nothing to comply.

GAJAPATI DISTRICT

1. Regularity in serving meal:

Instructions have been issued from time to time to the Collectors and Nodal DI of Schools to ensure uninterrupted supply of mid-day meals to the school children. Nodal DI of schools will be instructed to see that rice is available at least for one month in advance and cook-cum-helpers get their honorarium in time.

2. Trends:

District Administration is being requested to make physical verification of the enrolled children of each and every school and identify the cases of fake/ multiple enrollment for deletion. The SMC / SHG and the teachers should motivate the parents and students to partake mid-day meal instead of going home during the recess time. Central Govt. has been moved for placement of funds for procurement / replacement of kitchen devices, after receipt of which requirement of schools can be met. District Administration is being asked to take stringent action against officials / Implementing Agencies which are involved in cooking less /more quantity of rice than what is required and to intimate action taken against the erring officials / agencies.

3. Regularity in delivering food grains to school level:

MHRD, GoI will be moved for making provision of funds for procurement of digital weighing machines for supply to the Schools and the Blocks.

4. Regularity in delivering cooking cost to school level:

Instructions have been issued to the District authorities to directly release the cooking cost to the joint Bank Account of the schools meant for MDM Scheme only from Nodal DI of Schools level. The role of BDO in releasing cooking cost has been dispensed with for early release of funds.

5. Social equity:

Nothing to comply.

6. Variety of menu:

Nodal DI of Schools will be instructed to display weekly schedule of menu in the left out schools at a visible place.

7. Quality & quantity of meals:

Nothing to comply

8. Supplementary:

Convergence has been strengthened with the National Rural Health Mission, Department of Health & Family Welfare to expedite the School Health Programme. State Nodal Officer (MDM) has been designated as the Nodal Officer of the School & Mass Education Deptt. to coordinate

the School Health Programme. Capacity building has been done at the State level for effective implementation of the School Health Programme in the schools.

9. Status of cooks:

Instructions have been issued to the District authorities to engage cook-cum-helper as per GoI norm and he is to be paid Rs.1000/- each as monthly honorarium w.e.f. 01.04.2012. It is surprising why the district authorities have not implemented the GoI guidelines. Instructions will be reiterated to follow strictly the GoI guidelines to engage cook-cum-helper and make payment of Rs.1000/- to each cook-cum-helper as monthly honorarium.

10. Infrastructure:

Collectors have been instructed to complete all incomplete Kitchen-cum-Stores expeditiously as a result these kitchen-sheds can be used for cooking and storing purposes. In case funds earmarked is insufficient, they can dovetail funds from other sources and complete the incomplete ones. The MHRD, GoI will be moved to make provision of funds for procurement of LPG Gas. MHRD, GoI has been moved for placement funds for procurement/ replacement of cooking and serving utensils, after receipt of which requirement of some schools will be met. District Administration will be requested to see that portable water is available in all schools.

11. Safety and Hygiene:

Nothing to comply.

12. Community Participant:

Nothing to comply

13. Inspection & Supervision:

The CRCCs have been engaged as Cluster level Nodal Officers. They have been asked to supervise MDM during their visits to schools. The State Govt. have authorized senior officers to act as State Monitors in respect of MDM Scheme and they have to supervise MDM during their visits in the allotted districts.

14. Impact:

Nothing to comply.

- * * * -

Major Issues:

Item No.8 - In our State the Women SHGs have been entrusted to look after mid-day meal in the schools. They are providing hot cooked meal through the cook-cum-helpers. The headmaster /teachers of the schools are to ensure cleanliness of the cooking place, social equity and uninterrupted supply of hot cooked meal to the students. The Collectors and the DI of Schools will be advised to ensure uninterrupted supply of mid-day meal to the school children only through Women SHGs/ SMCs. In no case the teachers shall be allowed to manage MDM.

Item No.18 - MHRD, GoI will be moved to make provision of funds for construction of permanent dining hall.

All other issues have been discussed in the foregoing paragraphs.

Policy Recommendations:

Item No.5 – The Headmasters / Teachers have since been instructed to identify at morning prayer class every day as to the children who would opt for taking MDM and MDM should be cooked for them only. This will be reiterated.

Item No.9 – All the Collectors and the DI of Schools will be instructed to display the roles of SMC, SHG and teachers on MDM management in a flex board in a visible place in school for creating awareness.

Item No.16 – MHRD, GoI will be moved for placement of funds for procurement of steel-made storage bins and eating utensils.

All other recommendations have been discussed in the foregoing paragraphs.
